SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended **September 30, 2017**

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number **001-35471**

SAEXPLORATION HOLDINGS, INC.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

27-4867100

(I.R.S. Employer Identification No.)

1160 Dairy Ashford Road, Suite 160, Houston, Texas, 77079

(Address of principal executive offices)

(Zip Code)

(281) 258-4400

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See definition of "large accelerated filer", "accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Number of shares of common stock, \$0.0001 par value, outstanding as of November 1, 2017: 9,424,534

NOTE 1 — DESCRIPTION OF THE BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of the Business

SAExploration Holdings, Inc. and its Subsidiaries (collectively, the "Corporation") is an internationally-focused oilfield services company offering seismic data acquisition and logistical support services in Alaska, Canada, South America, West Africa and Southeast Asia to its customers in the oil and natural gas industry. In addition to the acquisition of 2D, 3D, time-lapse 4D and multi-component seismic data on land, in transition zones and offshore in depths reaching 3,000 meters, the Corporation offers a full-suite of logistical support and in-field data processing services. The Corporation operates crews around the world that utilize over 27,500 owned land and marine channels of seismic data acquisition equipment and other equipment as needed to complete particular projects. Seismic data is used by its customers, including major integrated oil companies, national oil companies and large international independent oil and gas exploration and production companies, to identify and analyze drilling prospects and maximize successful drilling. The results of the seismic surveys the Corporation conducts belong to its customers and are proprietary in nature; the Corporation does not acquire data for its own account or for future sale or maintain multi-client data libraries.

Basis of Presentation

The unaudited interim condensed consolidated financial statements of the Corporation as of September 30, 2017, and for the three and nine months ended September 30, 2017 and 2016 included herein, have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). The year-end condensed consolidated balance sheet data was derived from the audited financial statements as of December 31, 2016. Although the financial statements and related information included herein have been prepared without audit, and certain information and note disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted, the Corporation believes that the note disclosures are adequate to make the information presented not misleading. These unaudited condensed consolidated financial statements should be read in conjunction with the Corporation's audited consolidated financial statements and the notes thereto included in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2016 (the "10-K"). In the opinion of management, the unaudited interim financial statements included herein reflect all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation of the Corporation's financial position, results of operations, and cash flows for the periods presented. The results of operations for interim periods are not necessarily indicative of the results expected for the full year or any future period.

Certain amounts in the condensed consolidated statement of cash flows as of September 30, 2017, presented herein have been reclassified to conform to the current period presentation. These reclassifications had no effect on financial position, net income, or stockholders' deficit. On July 27, 2016, the Corporation completed a 135-for-1 reverse stock split, whereby each 135 shares of its common stock were reclassified into one share of common stock. All share and per share amounts for all periods presented have been adjusted to reflect the reverse split as though it had occurred prior to the earliest period presented.

Significant Accounting Policies

There have been no changes to the significant accounting policies of the Corporation from the information provided in Note 4 of the Notes to Consolidated Financial Statements in the Corporation's 10-K, except as discussed below under *Recently Issued Accounting Pronouncements - Restricted Cash* and *Going Concern*.

Recently Issued Accounting Pronouncements

Restricted Cash

In November 2016, the FASB issued new guidance intended to reduce the diversity in classification and presentation of restricted cash on the statement of cash flows. The new guidance requires the beginning-of-period and end-of-period totals on the statement of cash flows to include restricted cash and restricted cash equivalents. The new guidance is effective for fiscal years beginning after December 15, 2017 with early adoption permitted. The Corporation has adopted the guidance effective as of March 31, 2017, and retrospectively for all periods presented. As a result of this adoption, our condensed consolidated statement of cash flows will no longer present transfers between cash and cash equivalents and restricted cash. See Note 5 for a reconciliation of the totals in the condensed consolidated statement of cash flows and in the condensed consolidated balance sheets.

SAExploration Holdings, Inc. and Subsidiaries
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except for share and per share amounts and as otherwise noted)

Leases

In February 2016, the FASB issued new guidance on lease accounting affecting lessees and lessors. Lessees will be required to recognize assets and liabilities on the balance sheet for the rights and obligations created by all leases with terms of more than 12 months. As under current GAAP, the recognition, measurement, and presentation of expenses and cash flows arising from a lease for lessees will primarily depend on its classification as a finance or operating lease. For operating leases, lessees will recognize a single total lease expense. For finance leases, lessees will recognize amortization of the right-of-use asset separately from interest on the lease liability. For both types of leases, lessees will recognize a right-of-use asset and a lease liability on its balance sheet. Lessor accounting under the new standard will remain similar to lessor accounting under current GAAP. The new standard contains changes that are intended to align lessor accounting with the lessee accounting model and the revenue recognition standard issued in 2014. For public companies, the new guidance is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted. The Corporation is currently evaluating what impact adoption of this guidance will have on its financial position, results of operations, cash flows and disclosures.

Going Concern

In August 2014, the FASB issued new guidance on disclosures of uncertainties about an entity's ability to continue as a going concern. The guidance requires management's evaluation of whether there are conditions or events that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued. This assessment must be made in connection with preparing financial statements for each annual and interim reporting period. Management's evaluation should be based on the relevant conditions and events that are known and reasonably knowable at the date the financial statements are issued. If conditions or events raise substantial doubt about the entity's ability to continue as a going concern, but this doubt is alleviated by management's plans, the entity should disclose information that enables the reader to understand what the conditions or events are, management's evaluation of those conditions or events and management's plans that alleviate that substantial doubt. If conditions or events raise substantial doubt and the substantial doubt is not alleviated, the entity must disclose this in the footnotes. The entity must also disclose information that enables the reader to understand what the conditions or events are, management's evaluation of those conditions or events and management's plans that are intended to alleviate that substantial doubt. The amendments are effective for annual periods and interim periods within those annual periods beginning after December 15, 2016. The Corporation has adopted the guidance effective as of January 1, 2017. Adoption of this guidance did not have a material impact on the Corporation's financial position, results of operations, cash flows or disclosures.

Revenue Recognition

In May 2014, the FASB issued new guidance intended to change the criteria for recognition of revenue. The new guidance establishes a single revenue recognition model for all contracts with customers, eliminates industry specific requirements and expands disclosure requirements. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration that the entity expects to be entitled in exchange for those goods or services. To achieve this core principle, an entity should apply the following five steps: (1) identify contracts with customers, (2) identify the performance obligations in the contracts, (3) determine the transaction price, (4) allocate the transaction price to the performance obligation in the contract, and (5) recognize revenue as the entity satisfies performance obligations. The new guidance is effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. Early application is permitted for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period.

The Corporation is currently completing its assessment of the impact of the standard on its consolidated financial statements and related disclosures, but continues to evaluate the impact of this guidance. Currently, the Corporation expects the adoption of this standard may affect the timing in which the Corporation recognizes certain revenues and expenses of its contracts including demobilization expenses and to require expanded disclosure. There are two methods of transition permitted under the standard: the full retrospective method, in which the standard would be applied retrospectively to each prior reporting period presented; or the modified retrospective method, in which the standard would be applied to all contracts in process as of the date of initial application, with the cumulative effect of applying the standard recognized in beginning retained earnings. The Corporation currently anticipates adopting this standard using the modified retrospective method. The Corporation will adopt this guidance during the first quarter of 2018.

SAExploration Holdings, Inc. and Subsidiaries
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except for share and per share amounts and as otherwise noted)

NOTE 2 — RESTRUCTURING

The Corporation previously disclosed that it had entered into a comprehensive restructuring support agreement (the "Restructuring Support Agreement") with holders (the "Supporting Holders") of approximately 66% of the par value of the Corporation's 10% senior secured notes due 2019 (the "Senior Secured Notes" and the holders thereof, the "Existing Holders"), in which the Supporting Holders and the Corporation agreed to enter into and implement a proposed comprehensive restructuring of the Corporation's balance sheet, which included the funding of up to \$30 million in new capital (the "Restructuring") during the quarter ended June 30, 2016.

The following is a summary of the key aspects of the Restructuring:

Exchange of Senior Secured Notes for New Second Lien Notes. The Corporation commenced an offer on June 24, 2016, ("Exchange Offer") to exchange each \$1 of Senior Secured Notes held by the Existing Holders for (i) \$0.50 of newly issued 10% Senior Secured Second Lien Notes due 2019 (the "Second Lien Notes") and (ii) 46.41 shares of newly issued Corporation common stock (giving effect to a 135-for-1 reverse stock split that was effected in connection with closing of the exchange offer, the "Reverse Stock Split"). The Exchange Offer closed on July 27, 2016 ("Closing Date"). A further description of the terms of the Second Lien Notes and revised terms of the Senior Secured Notes is provided in Note 8.

Senior Loan Facility. On June 29, 2016, the Supporting Holders and the Corporation entered into a \$30 million multi-draw senior secured term loan facility (the "Senior Loan Facility"). All holders of the Senior Secured Notes that participated in the Exchange Offer were also able to participate in the Senior Loan Facility. Borrowings under the Senior Loan Facility bear interest at a rate of 10% per year, payable monthly. The Senior Loan Facility has a maturity date of January 2, 2018, unless terminated earlier. As part of the consideration for providing the Senior Loan Facility, the Corporation issued to the lenders shares equal to 28.2% of the outstanding shares of its common stock as of the Closing Date, after giving effect to the Reverse Stock Split. On September 8, 2017, the Corporation entered into a second amendment to the Senior Loan Facility that amended and extended a majority of the Senior Loan Facility ("Second Amendment"). A further description of the terms of the Senior Loan Facility and the Second Amendment are provided in Note 7.

Change in Priority of Secured Indebtedness. After the Closing Date, the priority claims of the Corporation's secured indebtedness are (1) the credit facility, which is secured by all of the existing collateral on a senior first lien priority basis, (2) the Senior Loan Facility, which is secured by all of the existing collateral on a junior first lien priority basis, (3) the Second Lien Notes, which is secured by substantially all of the existing collateral on a second lien priority basis and (4) the Senior Secured Notes, which is secured by substantially all of the existing collateral on a third lien priority basis.

Reverse Stock Split and Issuance of Common Stock. The Corporation's stockholders approved a 135-for-1 reverse stock split that was effected on the Closing Date. After the reverse stock split, 9,213,804 shares of common stock, representing 92.69% of the shares outstanding as of the Closing Date, were issued to the lenders under the Senior Loan Facility and to tendering holders of Senior Secured Notes. The effect of the Reverse Stock Split on prior periods' earnings per share is discussed in Note 5 and the effect on shares of common stock outstanding is discussed in Note 10.

New Board of Directors. As of the Closing Date, the Board of the Corporation (the "Board of Directors") was intended to be comprised of seven directors with the final director appointment made on January 11, 2017. The Board now consists of: one member of senior management, four directors chosen by the Supporting Holders, including one member of senior management, one director chosen by Whitebox Advisors LLC and one director chosen by BlueMountain Capital Management, LLC. Each of Blue Mountain Capital Management, LLC and Whitebox Advisors LLC has the right to choose one director to be nominated by the Corporation for so long as each of their common stock holdings following the Closing Date exceed 10% of the total shares outstanding.

Senior Management and Share-Based Compensation. The Corporation has entered into new employment agreements with members of its existing senior management. Existing equity grants under the 2013 Long-Term Incentive Plan vested as of the Closing Date for all current participants. Additionally, the Corporation adopted a management Long Term Incentive Plan, which was amended and restated during the second quarter of 2017 as further discussed in Note 11.

Warrants. As of the Closing Date, the Corporation issued warrants to existing holders of its common stock for 4.5% of the outstanding common stock. A further description of the terms of the warrants is provided in Note 10.

(In thousands, except for share and per share amounts and as otherwise noted)

NOTE 3 — CREDIT CONCENTRATION

At September 30, 2017, the Corporation's largest account receivable from one customer was \$78.1 million, representing 87% of total consolidated accounts receivable. This customer was relying on monetization of tax credits under a State of Alaska tax credit program ("Tax Credits"), either from proceeds from the State of Alaska or from third party financing sources, to satisfy the accounts receivable. There remains substantial uncertainty regarding the timing of reimbursement from the State of Alaska and the availability of third party financing to the customer, or the Corporation, in order for the Corporation to collect its accounts receivable.

Due to the customer's inability to monetize the Tax Credits, the Corporation's customer has assigned \$89.0 million of Tax Credits to the Corporation so that it can seek to monetize these Tax Credits and apply the resulting cash, as monetization occurs, toward the customer's repayment of its overdue account receivable. The Corporation has recorded a total reduction of the accounts receivable balance of \$3.5 million related to the monetization of Tax Credits during the nine months ended September 30, 2017. Based upon the uncertainty regarding the timing to monetize the Tax Credits, the Corporation has classified \$44.0 million and \$38.0 million as a long term accounts receivable as of September 30, 2017 and December 31, 2016, respectively. The Corporation reclassified an additional \$6.0 million to long term in the nine months ended September 30, 2017 due to delays in monetization of Tax Credit certificates related to the legislation discussed below.

As of September 30, 2017, the State of Alaska has completed its audit of approximately \$46.3 million of Tax Credit applications. This audit resulted in the Corporation receiving approximately \$40.5 million of Tax Credit certificates from the State of Alaska. The State of Alaska disallowed approximately \$5.8 million of what the Corporation believes should otherwise be eligible expenditures. The Corporation's customer filed an appeal of this decision on October 18, 2016 seeking a reversal of the disallowed amount. The Corporation expects additional Tax Credit certificates from the State of Alaska representing approximately \$42.7 million to be issued during the remainder of 2017 and the beginning of 2018.

There continues to be significant uncertainty regarding the timely payment by the State of Alaska of its obligations on issued Tax Credit certificates as well as the Corporation's ability to accurately estimate the timeframe for such payments. The Corporation continues to explore options to monetize the Tax Credit certificates, including the option to sell the certificates in the secondary market at a discount to purchasers that are able to apply the certificates to reduce their own Alaskan tax liabilities. There is a risk that any monetization of the Tax Credit certificates, however, will reflect a substantial discount and may be insufficient to fully repay the customer's outstanding accounts receivable. Should this result, the Corporation may be required to record an impairment to the amount due from our customer. In addition, the Corporation believes the secondary market has been negatively impacted by the uncertainty about future political developments or legislative actions affecting oil and gas exploration activities and overall oil and gas market conditions. This has currently delayed the Corporation's ability to monetize its Tax Credit certificates. The Corporation believes recent legislation actions should positively affect the secondary market, however, the Corporation does not control the timing or outcome of the actions in this market. The Corporation is relying on the secondary market to monetize the Tax Credit certificates and, if it does not improve, the Corporation may be required to record an impairment to the amount due from its customer. The Corporation also believes that rising oil prices may increase the market for the Tax Credit certificates, but there can be no assurance that prices will increase sufficient to improve the market or when it might occur.

In addition to monetization of the Tax Credits, the Corporation has other possible ways to receive payments on the accounts receivable from the Corporation's customer. The Corporation has possession of the seismic data and will continue to hold it until it has received payment in full of our accounts receivable. The Corporation continues to assist the customer in actively marketing and licensing of the seismic data it collected on behalf of our customer. Licensing revenues received must be paid to the Corporation in satisfaction of our accounts receivable. In addition, subject to any licenses granted, the customer has the right to sell the data and apply the proceeds to our receivables. The Corporation believes that the receipt of these licensing revenues and sales proceeds may be sufficient to cover the difference between the owed accounts receivable and the cash it is able to generate by monetization of the Tax Credits, but there can be no assurance that it will occur or when any such payments will be received.

NOTE 4 — EARNINGS PER SHARE

Basic income (loss) per share is computed by dividing net income (loss) attributable to the Corporation by the weighted average number of common shares outstanding during each period. Diluted income (loss) per share is computed by dividing net income (loss) attributable to the Corporation by the sum of the weighted-average number of shares outstanding during each period and

SAExploration Holdings, Inc. and Subsidiaries
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except for share and per share amounts and as otherwise noted)

the dilutive potential common shares outstanding during the period determined under the treasury stock method. In loss periods, basic net loss and diluted net loss are the same since the effect of potential common shares is anti-dilutive and therefore excluded.

Dilutive potential common shares consist of shares issuable upon (i) the vesting of restricted stock, (ii) the exercise of warrants at average market prices greater than their exercise prices, and (iii) the exercise of stock options at average market prices greater than their exercise prices. Under the treasury stock method, dilutive potential common shares are determined based on the assumed exercise of dilutive restricted stock, stock options and warrants less the number of treasury shares assumed to be purchased from the amount that must be paid to exercise stock options, the amount of compensation expense for future service that has not yet been recognized for restricted stock and stock options, and the amount of tax benefits that will be recorded in additional paid-in capital when the dilutive awards become deductible.

As discussed in Note 10, the Corporation's Board of Directors authorized a 135-for-1 reverse split of the outstanding common stock effective as of the Closing Date of the Restructuring. As a result, all share and per share amounts for all periods presented have been adjusted to reflect the reverse split as though it had occurred prior to the earliest period presented.

The computation of basic and diluted net loss per share is as follows:

	Three Months Ended			Nine Months Ended		
	Net Loss Attributable to the Corporation	Shares	Per Share	Net Loss Attributable to the Corporation	Shares	Per Share
September 30, 2017:						
Basic loss per share	\$ (13,770)	9,405,163	\$ (1.46)	\$ (24,830)	9,374,244	\$ (2.65)
Effect of dilutive securities	—	—	—	—	—	—
Diluted loss per share	\$ (13,770)	9,405,163	\$ (1.46)	\$ (24,830)	9,374,244	\$ (2.65)
September 30, 2016:						
Basic income per share	\$ (17,412)	6,639,503	\$ (2.62)	\$ (2,917)	2,315,189	\$ (1.26)
Effect of dilutive securities	—	—	—	—	—	—
Diluted income per share	\$ (17,412)	6,639,503	\$ (2.62)	\$ (2,917)	2,315,189	\$ (1.26)

Options to purchase 311,477 shares of common stock have been excluded from the calculation of diluted net loss per share in the three and nine month periods ended September 30, 2017 and 2016, since the option exercise price was higher than the weighted average share price during the period the options were outstanding.

Unvested restricted stock units representing 31,009 issuable shares under the treasury stock method were excluded from the calculation of diluted net loss per share in the nine month periods ended September 30, 2017, since they were anti-dilutive. Unvested restricted stock units totaling 39,667 and 17,134 shares under the treasury stock method were excluded from the calculation of diluted net loss per share in the three and nine month periods ended September 30, 2016, respectively, since they were anti-dilutive.

Warrants to purchase 308,752 shares of common stock have been excluded from the calculation of diluted net loss per share in the three and nine month periods ended September 30, 2017, since the warrant exercise prices were higher than the weighted average share price during the respective periods. Warrants to purchase 308,216 shares of common stock have been excluded from the calculation of diluted net loss per share in the three and nine month periods ended September 30, 2016, since the warrant exercise prices were higher than the weighted average share price during the respective periods.

NOTE 5 — DETAIL OF SELECTED BALANCE SHEET ACCOUNTS

Cash, Cash Equivalents and Restricted Cash

The following table provides a reconciliation of cash, cash equivalents and restricted cash reported in the condensed consolidated balance sheet to the amounts shown in the condensed consolidated statements of cash flows.

	<u>September 30, 2017</u>	<u>December 31, 2016</u>
Cash and cash equivalents	\$ 13,537	\$ 11,460
Restricted cash	535	536
Total cash, cash equivalents, and restricted cash shown in the condensed consolidated statements of cash flows	<u>\$ 14,072</u>	<u>\$ 11,996</u>

Restricted cash primarily consists of cash collateral for labor claims, office rental and cash in another country restricted by exchange control regulations.

During the nine months ended September 30, 2017, a variable interest entity in West Africa ("SAE Nigeria") that the Corporation previously controlled entered into multiple physical trades of the Naira currency (classified as restricted cash) for US dollars at various exchange rates. The US dollars received in the trade are no longer subject to exchange control regulations. As a result of these trades, a foreign exchange loss of \$545 and \$1,310 was recognized during the three and nine months ended September 30, 2017, respectively. As of September 30, 2017, the Corporation no longer controls SAE Nigeria. For further information on this entity, see Note 13.

Accounts Receivable

Accounts receivable is comprised of the following:

	<u>September 30, 2017</u>	<u>December 31, 2016</u>
Current:		
Accounts receivable	\$ 45,938	\$ 69,733
Less allowance for doubtful accounts	(12)	(12)
Accounts receivable, net	<u>\$ 45,926</u>	<u>\$ 69,721</u>
Noncurrent:		
Accounts receivable	\$ 43,961	\$ 37,984
Less allowance for doubtful accounts	—	—
Accounts receivable, net	<u>\$ 43,961</u>	<u>\$ 37,984</u>

Property and Equipment

Property and equipment is comprised of the following:

	<u>September 30, 2017</u>	<u>December 31, 2016</u>
Property and equipment	\$ 106,243	\$ 104,203
Less accumulated depreciation and amortization	(70,646)	(61,444)
Property and equipment, net	<u>\$ 35,597</u>	<u>\$ 42,759</u>

SAExploration Holdings, Inc. and Subsidiaries

(In thousands, except for share and per share amounts and as otherwise noted)

Intangible Assets

Intangible assets are comprised of the following:

	<u>September 30, 2017</u>	<u>December 31, 2016</u>
Intangible assets	\$ 1,409	\$ 1,356
Less accumulated amortization	(708)	(635)
Intangible assets, net	<u>\$ 701</u>	<u>\$ 721</u>

Accrued Liabilities

Accrued liabilities are comprised of the following:

	<u>September 30, 2017</u>	<u>December 31, 2016</u>
Accrued payroll liabilities	\$ 3,068	\$ 7,432
Accrued interest	1,820	106
Other accrued liabilities	3,604	5,212
Total accrued liabilities	<u>\$ 8,492</u>	<u>\$ 12,750</u>

NOTE 6 — CREDIT FACILITY

On September 22, 2017, SAExploration, Inc. ("Borrower"), the Corporation, and the Corporation's other domestic subsidiaries entered into the First Amended and Restated Credit and Security Agreement (the "Credit Agreement") with the lenders from time to time party thereto (the "Lenders") and Cantor Fitzgerald Securities, as agent (the "Agent"). The Credit Agreement amends and restates the Credit and Security Agreement dated as of November 6, 2014 (the "Prior Credit Agreement") by and among the Borrower, the Guarantors, and Wells Fargo Bank, National Association as lender (the "Original Lender"). Immediately prior to entering into the Credit Agreement, the Original Lender sold its interest in the Prior Credit Agreement upon entering into the Loan Assignment, Assumption and Indemnity Agreement (the "Assignment Agreement") with the Agent who subsequently assigned those rights and obligations to one of the Corporation's Supporting Holders (the "Assignee"). Two additional holders elected to join the Credit Agreement (together with the Assignee, the "Lenders"), including one holder as further described in Note 14.

The Credit Agreement provides for up to \$16,000 in borrowings secured primarily by the Borrower's North American assets, mainly accounts receivable and equipment subject to certain exclusions (the "Credit Facility"). The proceeds of the Credit Facility will primarily be used to fund the Borrower's working capital needs for its operations and for general corporate purposes. As of September 30, 2017, borrowings outstanding under the Credit Facility were:

	<u>September 30, 2017</u>
Principal outstanding	\$ 5,000
Less: unamortized deferred loan issuance costs	(793)
Total Credit Facility outstanding	<u>\$ 4,207</u>

Additional borrowings under the Credit Facility are subject to Lenders' sole discretion and must be in minimum increments of \$1,000.

Borrowings made under the Credit Facility bear interest at a rate of 10.25% per annum for the period from September 22, 2017 through and including March 22, 2018, 10.75% per annum for the period from March 23, 2018 through and including September 22, 2018 and 11.75% per annum for the period from September 23, 2018 and thereafter. The Credit Facility matures on January 2, 2020, provided that the maturity shall be September 14, 2018 if there are any outstanding Senior Secured Notes or Second Lien Notes at that time, unless terminated earlier.

SAExploration Holdings, Inc. and Subsidiaries
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except for share and per share amounts and as otherwise noted)

In addition to the above and among other things, the Credit Agreement:

- eliminated the ability to redraw borrowings once repaid and placed certain restrictions on the ability to repay borrowings;
- eliminated the sub-facility for letters of credit;
- provided for mandatory prepayment with any proceeds from Tax Credits that exceeded \$15,000, unless waived by the Lenders; and
- removed certain covenants including those to maintain a minimum EBITDA specified above and to maintain eligible equipment of a certain amount.

The Credit Agreement was accounted for as a modification during the three-month period ended September 30, 2017. In connection with the Credit Agreement, deferred loan issuance costs totaling \$782 were recorded in the three and nine months ended September 30, 2017 consisting of \$400 of fees, payable to the Lenders, and \$382 of legal and investment banking costs.

The Credit Agreement contain covenants including, but not limited to (i) maintain and deliver to the Lenders, as required, certain financial reports, records and other items, (ii) subject to certain exceptions under the Credit Agreement, restrictions on the ability of the Corporation to incur indebtedness, create or incur liens, enter into fundamental changes to corporate structure or to the nature of the business of the Corporation, dispose of assets, permit a change in control, acquire non-permitted investments, enter into affiliate transactions or make distributions. The Credit Agreement also contains representations, warranties, covenants and other terms and conditions, including relating to the payment of fees to the Lenders, which are customary for agreements of this type. The Corporation was in compliance with the Credit Agreement covenants as of September 30, 2017.

The Credit Agreement also provides for customary events of default. If an event of default occurs and is continuing, then the Lenders may, among other options as described in the Credit Agreement, declare the obligations of the Borrower to be due and payable immediately or declare the funding obligations of the Lenders terminated immediately, subject to the terms of that certain Amended and Restated Intercreditor Agreement, dated as of June 29, 2016 (the "Intercreditor Agreement"), by and among the Original Lender, Wilmington Savings Fund Society, FSB, Delaware Trust Company and the Additional Noteholder Agent (as defined in the Intercreditor Agreement).

Prior Credit Agreement

Borrowings outstanding under the Prior Credit Agreement were \$5,844 as of December 31, 2016. Borrowings made under the Prior Credit Agreement bore interest, payable monthly, at a rate of daily three month LIBOR plus 3% (4.00% at December 31, 2016). The Prior Credit Agreement had a maturity date of November 6, 2017. The Prior Credit Agreement also included a sub-facility for letters of credit in amounts up to the lesser of the available borrowing base or \$10,000. Letters of credit were subject to Lender approval and a fee that accrued at the annual rate of 3% of the undrawn daily balance of the outstanding letters of credit, payable monthly. An unused line fee of 0.5% per annum of the daily average of the maximum amount under the Prior Credit Agreement reduced by outstanding borrowings and letters of credit, was payable monthly. As of December 31, 2016, there were no letters of credit outstanding under the sub-facility and the sub-facility was eliminated in the Credit Agreement.

For a complete discussion of the terms and security for the Credit Agreement, see Note 6 of Notes to Consolidated Financial Statements included in the Corporation's 10-K.

NOTE 7 — SENIOR LOAN FACILITY

On June 29, 2016, the Corporation, as borrower, and each of the Corporation's domestic subsidiaries, as guarantors (the "Guarantors"), entered into the Senior Loan Facility with the Supporting Holders of the Senior Secured Notes. In addition to the Supporting Holders, one additional holder of the senior secured notes subsequently elected to participate as a lender in the Senior Loan Facility based on their proportionate ownership of the Senior Secured Notes as discussed in Note 14. The Senior Loan Facility provides funding up to a maximum borrowing amount of \$30,000. Under the terms of the Senior Loan Facility, \$15,000 became immediately available and the remaining \$15,000 became available when the Corporation entered into the first amendment to the Senior Loan Facility. As of September 30, 2017 and December 31, 2016, borrowings of \$29,995 were outstanding under the Senior Loan Facility.

SAExploration Holdings, Inc. and Subsidiaries
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except for share and per share amounts and as otherwise noted)

On September 8, 2017, the Corporation entered into the Second Amendment to the Senior Loan Facility that amended and extended a majority of the Senior Loan Facility held by consenting lenders representing \$29,000 of the total principal outstanding (the "Extended Loans"). The Second Amendment, among other things, for the Extended Loans:

- extended the maturity date to January 2, 2020; provided that the maturity is January 2, 2019 if there are any outstanding Senior Secured Notes or Second Lien Notes at that time;
- increased the interest rate from 10% per year to 10.5% beginning on September 8, 2017 to, but not including, February 8, 2018, 11.5% per year for the succeeding six-month period, and 12.5% per year thereafter until the maturity, payable monthly in cash;
- provided for a mandatory prepayment with the proceeds from any Tax Credit; and
- provided for a call premium with respect to certain prepayments.

The remaining \$995 of advances under the Senior Loan Facility (the "Residual Loans") remain under the original terms of the Senior Loan Facility where borrowings bear interest at a rate of 10% per year, payable monthly and the maturity date is January 2, 2018, unless terminated earlier. The Residual Loans also require mandatory prepayment from the proceeds of any Tax Credit after the Corporation has received \$15,000 in proceeds from the Tax Credits.

The Second Amendment was accounted for as a modification during the three-month period ending September 30, 2017. In connection with the Second Amendment, deferred loan issuance costs totaling \$914 were recorded in the three and nine months ended September 30, 2017. The deferred loan issuance costs recorded during these periods consisted of \$600 of fees, which will be paid to the lenders, and \$314 of legal and investment banking costs. In connection with the initial borrowing, deferred loan issuance costs totaling \$29,091 and \$30,051 were recorded in the three and nine months ended September 30, 2016, respectively, which were recorded as a deferred loan issuance cost on the balance sheet. The deferred loan issuance costs recorded in the nine months ended September 30, 2016 consisted of a \$600 facility fee, \$1,026 in legal and investment banking costs, and \$28,425 for the fair value of 2,803,302 shares of Corporation common stock issued to the lenders on July 27, 2016. The fair value of the common stock was determined using the probability-weighted expected return method based on a combination of the income and market approaches and a mergers and acquisition scenario.

The Senior Loan Facility is secured by substantially all of the collateral securing the obligations under (i) the Credit Agreement, (ii) the Senior Secured Notes and (iii) the Second Lien Notes, including the receivable due to the Corporation discussed in Note 3. This security interest is junior to the security interest in such collateral securing the obligations under the Credit Facility and senior to the security interests in such collateral securing the obligations under the Second Lien Notes and the Senior Secured Notes.

The Senior Loan Facility contains negative covenants that restrict the Corporation's and the Guarantors' ability to incur indebtedness, create or incur liens, enter into fundamental changes to the Corporation's corporate structure or to the nature of the Corporation's business, dispose of assets, permit a change in control to occur, make certain prepayments, other payments and distributions, make certain investments, enter into affiliate transactions or make certain distributions, and requires the Corporation maintain and to deliver certain financial reports, projections, records and other items. The Senior Loan Facility also contains customary representations, warranties, covenants and other terms and conditions, including relating to the payment of fees to the Senior Loan Facility agent and the lenders, and customary events of default. The Corporation is in compliance with the Senior Loan Facility covenants as of September 30, 2017.

SAExploration Holdings, Inc. and Subsidiaries
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except for share and per share amounts and as otherwise noted)

NOTE 8 — NOTES PAYABLE

Notes payable outstanding were as follows:

	<u>September 30, 2017</u>	<u>December 31, 2016</u>
10% second lien notes due 2019:		
Carrying value, including paid-in-kind interest of \$8,467 and \$3,619 and unamortized premium of \$286 and \$394 as of September 30, 2017 and December 31, 2016, respectively	\$ 85,275	\$ 80,536
Less: unamortized debt discount	(216)	(298)
Total second lien notes outstanding	<u>85,059</u>	<u>80,238</u>
10% senior secured notes due 2019:		
Principal outstanding	1,872	1,872
Less: unamortized deferred loan issuance costs	(29)	(42)
Total senior secured notes outstanding	<u>1,843</u>	<u>1,830</u>
Total notes payable outstanding (long-term)	<u>\$ 86,902</u>	<u>\$ 82,068</u>

On July 2, 2014, the Corporation entered into an indenture under which it issued \$150,000 of senior secured notes due July 15, 2019, in a private offering to qualified institutional buyers pursuant to Rule 144A under the Securities Act and to non-U.S. persons in offshore transactions pursuant to Regulation S under the Securities Act. On June 19, 2015, all outstanding senior secured notes were exchanged for an equal amount of new Senior Secured Notes, which are substantially identical in terms to the existing senior secured notes except that the Senior Secured Notes are registered under the Securities Act of 1933, as amended. In addition, on August 26, 2015, the Corporation entered into an exchange of \$10,000 face value of Senior Secured Notes for 2,366,307 shares of the Corporation's common stock. The Senior Secured Notes bear interest at the annual rate of 10% payable semi-annually in arrears on January 15 and July 15 of each year, commencing on January 15, 2015.

As discussed in Note 2, the Corporation commenced an offer on June 24, 2016 to exchange each \$1 of the Senior Secured Notes for (i) \$0.50 of newly issued 10% Second Lien Notes due 2019 and (ii) 46.41 shares of newly issued Corporation common stock (giving effect to a 135-for-1 reverse stock split that was effected in connection with closing of the Exchange Offer). On the Closing Date, a total of \$138,128 face value of the Senior Secured Notes were exchanged for (i) \$76,523 Second Lien Notes, including \$7,459 Second Lien Notes representing accrued and unpaid interest and (ii) 6,410,502 shares of Corporation common stock, which was recorded at fair value. The exchange was accounted for as a modification during the three-month period ending September 30, 2016. The Second Lien Notes were recorded at the net carrying value of the Senior Secured Notes exchanged of \$134,522, less the fair value of the Corporation common stock issued to participating noteholders of \$65,003, plus the accrued and unpaid interest of \$7,459 included in the exchange. The fair value of the common stock was determined using the probability-weighted expected return method based on a combination of the income and market approaches and a mergers and acquisition scenario. In connection with the exchange and Restructuring, the Corporation recognized debt restructuring costs of \$2,891 and \$5,225 during the three and nine month periods ended September 30, 2016, respectively.

The Second Lien Notes are substantially similar to the Senior Secured Notes with the following modifications:

- The Second Lien Notes have a maturity date of September 24, 2019, provided that, if any of the Senior Secured Notes remain outstanding as of March 31, 2019, the maturity date of the Second Lien Notes will become April 14, 2019 upon the vote of the holders of a majority of the then-outstanding Second Lien Notes.
- The liens securing the Second Lien Notes are junior to the liens securing the Senior Loan Facility and senior to the liens securing the Senior Secured Notes.
- Interest on the Second Lien Notes is payable quarterly. The Corporation had the option to elect to pay interest on the Second Lien Notes in kind with additional Second Lien Notes for the first twelve months of interest payment dates, provided that, if the Corporation made the election, the interest on the Second Lien Notes for such in kind payments

SAExploration Holdings, Inc. and Subsidiaries
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except for share and per share amounts and as otherwise noted)

accrued at a per annum rate 1% percent higher than the cash interest rate of 10%. The Corporation elected to pay interest in kind during the three and nine months ended September 30, 2017 of \$379 and \$4,848, respectively and during the three and nine months ended September 30, 2016 of \$1,473.

- The Second Lien Notes have a special redemption right at par of up to \$35 million of the issuance to be paid out of the proceeds of the Alaska Tax Credit certificates and is conditioned upon payment in full of the Credit Facility and the Senior Loan Facility.
- The Second Lien Notes include a make-whole provision requiring that, if the Second Lien Notes are accelerated or otherwise become due and payable prior to their stated maturity due to an Event of Default (including but not limited to a bankruptcy or liquidation of the Corporation (including the acceleration of claims by operation of law)), then the applicable premium payable with respect to an optional redemption will also be immediately due and payable, along with the principal of, accrued and unpaid interest on, the Second Lien Notes and constitutes part of the obligations in respect thereof as if such acceleration were an optional redemption of the Second Lien Notes, in view of the impracticability and extreme difficulty of ascertaining actual damages and by mutual agreement of the parties as to a reasonable calculation of each holder's lost profits as a result thereof.

The indentures for the Senior Secured Notes and Second Lien Notes contain covenants that include limitations on the Corporation's ability to: (i) transfer or sell assets; (ii) pay dividends, redeem subordinated indebtedness or make other restricted payments; (iii) incur or guarantee additional indebtedness or, with respect to the Corporation's restricted subsidiaries, issue preferred stock; (iv) create or incur liens; (v) incur dividend or other payment restrictions affecting its restricted subsidiaries; (vi) consummate a merger, consolidation or sale of all or substantially all of its or its subsidiaries' assets; (vii) enter into transactions with affiliates; (viii) engage in business other than its current business and reasonably related extensions thereof; and (ix) take or omit to take any actions that would adversely affect or impair in any material respect the collateral securing the notes. The Corporation was in compliance with the indenture covenants as of September 30, 2017.

For a complete discussion of the terms and security for the Senior Secured Notes and Second Lien Notes, see Note 8 of Notes to Consolidated Financial Statements included in the Corporation's 10-K.

NOTE 9 — INCOME TAXES

The Corporation's effective tax rate was (16.4)% and (7.1)% for the three months ended September 30, 2017 and 2016, respectively. The increase in the 2017 effective tax rate for the three month period is primarily due to the impact of deferred tax valuation allowances related to net operating loss carryforwards available to be used in future periods. The Corporation's effective tax rate was (22.3)% and 97.8% for the nine months ended September 30, 2017 and 2016, respectively. The decrease in the 2017 effective tax rate for the nine months period is primarily due to several factors including fluctuations in earnings among the various foreign jurisdictions in which the Corporation operates, decreases in permanent tax differences offset by increases in deferred tax valuation allowances related to U.S. losses and net operating loss carryforwards available to be used in future periods. The primary reason the 2017 effective tax rate differs from the 35% Federal statutory corporate rate is increases in deferred tax valuation allowances from U.S. losses and net operating loss carryforwards available to be used in future periods.

Earnings associated with the investments in the Corporation's foreign subsidiaries are considered to be indefinitely reinvested outside of the U.S. Therefore, a U.S. provision for income taxes on those earnings or translation adjustments has not been recorded. Determination of any unrecognized deferred tax liability for temporary differences related to investments in foreign subsidiaries that are essentially permanent in duration is not practicable due to the inherent complexity of the multi-national tax environment in which the Corporation operates.

The Corporation believes that without positive evidence, it is more likely than not that the benefit from certain net operating loss ("NOL") carryforwards and foreign tax credits may not be realized. In recognition of this risk, the Corporation has maintained a full valuation allowance for the deferred tax assets relating to these NOL carryforwards and foreign tax credits of certain countries.

SAExploration Holdings, Inc. and Subsidiaries
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except for share and per share amounts and as otherwise noted)

NOTE 10 — STOCKHOLDERS' EQUITY

Preferred Stock

The Corporation is authorized to issue 1,000,000 shares of preferred stock with a par value of \$0.0001 per share with such designations, rights, and preferences as may be determined from time to time by the Corporation's Board of Directors. As of September 30, 2017 and December 31, 2016, there were no shares of preferred stock issued or outstanding.

Common Stock and Treasury

The Corporation is authorized to issue 55,000,000 shares of common stock with a par value of \$0.0001 per share. On June 15, 2016, the Corporation's Board of Directors authorized a 135-for-1 reverse split of the outstanding common stock effective as of the Closing Date of the Restructuring. All share and per share amounts for all periods presented have been adjusted to reflect the reverse split as though it had occurred prior to the earliest period presented. The changes in the number of ordinary shares outstanding and treasury shares held by the Corporation are as follows:

	Nine months ended September 30, 2017
<i>Shares issued</i>	
Balance as of December 31, 2016	9,358,529
Vesting of restricted stock	103,829
Balance as of September 30, 2017	9,462,358
<i>Shares held as treasury shares</i>	
Balance as of December 31, 2016	—
Purchase of treasury stock	37,824
Balance as of September 30, 2017	37,824
<i>Ordinary shares outstanding at September 30, 2017</i>	9,424,534

Warrants

A total of 4,310 warrants with an expiration date of June 24, 2016 and an exercise price of \$12.00 per share expired unexercised.

As of September 30, 2017, 154,376 Series A warrants and 154,376 Series B warrants with an expiration date of July 27, 2021 were outstanding. The Series A warrants and Series B warrants have exercise prices of \$10.30 and \$12.88, respectively, and become exercisable 30 days in advance of their expiration date contingent upon the receipt by the Corporation of Tax Credit certificates in a face amount of at least \$25 million issued by the State of Alaska to the Corporation.

Common Stock Held in Escrow in Connection with Merger

The Corporation was initially formed on February 2, 2011 under the name Trio Merger Corp. as a blank check company in order to effect a merger, capital stock exchange, asset acquisition or other similar business combination with one or more business entities. On June 24, 2013 (the "Closing"), a wholly-owned subsidiary of the Corporation completed a merger ("Merger") under an Agreement and Plan of Reorganization, as amended ("Merger Agreement") with the entity formerly known as SAExploration Holdings, Inc. ("Former SAE"), at which time the business of Former SAE became the Corporation's business.

Merger Consideration Escrow

SAExploration Holdings, Inc. and Subsidiaries
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except for share and per share amounts and as otherwise noted)

A portion of the merger consideration payable at Closing was allocable to holders of certain derivative securities of Former SAE that were not converted or exchanged prior to the Merger. As of September 30, 2017, a total of 200 shares of Corporation common stock were held in escrow pending the conversion or exercise of those derivative securities (the "Merger Consideration Escrow"). The escrow agreement provides that CLCH, LLC ("CLCH"), as nominee of the Corporation, will have voting control over all shares of Corporation common stock held in the Merger Consideration Escrow.

Merger Indemnification Escrow

A total of 4,041 shares of Corporation common stock issued to Former SAE stockholders at Closing of the Merger and deposited in escrow were released to the Former SAE stockholders on May 23, 2016.

NOTE 11 — SHARE-BASED COMPENSATION

Share-based compensation expense for stock option and restricted stock unit awards in the three and nine months ended September 30, 2017 was \$384 and \$1,649, respectively. Share-based compensation expense for stock option and restricted stock unit awards in the three and nine months ended September 30, 2016 was \$273 and \$616, respectively. At September 30, 2017, there was approximately \$441 of unrecognized compensation expense for unvested stock option awards with a weighted average vesting period of 1.82 years. At September 30, 2017, there was approximately \$889 of unrecognized compensation expense for unvested restricted stock unit awards with a weighted average vesting period of 1.82 years. During the three and nine months ended September 30, 2017 and 2016, there were no grants of stock options or restricted stock unit awards.

As an element of the Restructuring discussed in Note 2, the Corporation accelerated the vesting of all existing awards under its 2013 Long -Term Incentive Plan effective as of the Closing Date. As a result of the accelerated vesting, the Corporation charged the remaining unrecognized compensation expense on existing awards to the result of operations during the three month period ending September 30, 2016.

Amended and Restated 2016 Long Term Incentive Plan

On May 8, 2017, the Corporation received written consent from holders of a majority of the Corporation's common stock outstanding approving and adopting the Corporation's Amended and Restated 2016 Long-Term Incentive Plan (the "2016 Amended and Restated Plan"). The 2016 Amended and Restated Plan became effective on May 30, 2017. The 2016 Amended and Restated Plan (i) combines the shares under the 2016 Long Term Incentive Plan and the 2013 Non-Employee Director Plan (the "Original Plans") into a common pool of common stock, (ii) allows the granting of awards for payment of annual bonuses provided for under employment agreements with officers and under its bonus program for employees and (iii) adopts other amendments necessary for granting awards to both employees and non-employee directors. No further shares will be issued under the Original Plans and any remaining shares under the Original Plans are reserved for issuance under the 2016 Amended and Restated Plan. The total number of shares of common stock reserved for issuance under the 2016 Amended and Restated Plan is 1,438,258 less any shares that have been previously issued under the Original Plans. As of September 30, 2017, there were 639,167 restricted shares, restricted stock units and options issued under the original plans issued under the 2016 Amended and Restated Plan.

NOTE 12 — FAIR VALUE OF FINANCIAL INSTRUMENTS

The Corporation has certain assets and liabilities that are required to be measured and disclosed at fair value in accordance with GAAP. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. When an asset or liability is required to be measured at fair value, an entity is required to maximize the use of observable inputs and minimize the use of unobservable inputs using a fair value hierarchy as follows:

Level 1: Observable inputs such as quoted prices for identical assets or liabilities in active markets.

Level 2: Observable inputs other than quoted prices that are directly or indirectly observable for the asset or liability, including quoted prices for similar assets or liabilities in active markets; quoted prices for similar or identical assets or liabilities in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

SAExploration Holdings, Inc. and Subsidiaries
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except for share and per share amounts and as otherwise noted)

Level 3: Unobservable inputs that reflect the reporting entity's own assumptions. Measurement is based on prices or valuation models requiring inputs that are both significant to the fair value measurement and supported by little or no market activity.

The carrying amount of cash and cash equivalents, restricted cash, accounts receivable, accounts payable, accrued liabilities, borrowings under the Credit Facility and borrowings under the Senior Loan Facility are a reasonable estimate of their fair values due to their short duration.

There were no Corporation financial instruments measured at fair value on a recurring basis at September 30, 2017, December 31, 2016 or September 30, 2016.

The Corporation's financial instruments not recorded at fair value consist of the Senior Secured Notes and Second Lien Notes. At September 30, 2017, the carrying value of the Senior Secured Notes and Second Lien Notes was \$1,843 and \$85,059, respectively. At September 30, 2017, the estimated fair value of the Senior Secured Notes and Second Lien Notes was \$1,126 and \$54,818, respectively. The fair value is determined by a market approach using dealer quoted period-end bond prices. These instruments are classified as Level 2 as valuation inputs for fair value measurements as they are dealer quoted market prices at September 30, 2017 obtained from independent third party sources. However, no assurance can be given that the fair value would be the amount realized in an active market exchange.

The Corporation's non-financial assets include goodwill, property and equipment, and other intangible assets, which are classified as Level 3 assets. These assets are measured at fair value on a nonrecurring basis as part of the Corporation's impairment assessments and as circumstances require. Goodwill is subjected to an annual review for impairment or more frequently as required.

NOTE 13 — VARIABLE INTEREST ENTITIES

Effective November 19, 2012, an agreement was entered into between a subsidiary of the Corporation and Kuukpik Corporation ("Kuukpik") to form a separate legal entity ("Joint Venture") for the purpose of performing contracts for the acquisition and development of geophysical and seismic data and for geophysical and seismic services and any and all related work anywhere on the North Slope of Alaska (onshore or offshore) for a period of five years. The Corporation's and Kuukpik's percentage ownership interests in the Joint Venture are 49.0% and 51.0%, respectively. The sole source of revenue of the Joint Venture is contracts performed by the Corporation. Pre-award costs incurred on potential contracts by Kuukpik and the Corporation are absorbed by each party and not by the Joint Venture. The Joint Venture receives 10% of gross revenues of all North Slope of Alaska contracts performed by the Corporation, which is distributed to Kuukpik and the Corporation based on their relative ownership percentages. Risk of loss on a contract, including credit risk, is the Corporation's sole responsibility. Based on its power to influence the significant business activities of the Joint Venture and its responsibility to absorb contract losses, the Corporation was determined to be the primary beneficiary under GAAP and as such consolidates the Joint Venture. The results of the Joint Venture are combined with the Corporation and all intercompany transactions are eliminated upon consolidation. Amounts reflected for the Joint Venture in the unaudited condensed consolidated financial statements consist of the balances reported under net income attributable to noncontrolling interest for the three and nine month periods ended September 30, 2017 and 2016, and noncontrolling interest on the September 30, 2017 and December 31, 2016 balance sheets.

Effective October 18, 2016, an agreement was entered into between the Corporation and SAExploration Nigeria Limited ("SAE Nigeria") for the purpose of performing acquisition and development of geophysical and seismic data on a specific project in West Nigeria ("West Nigeria Project"). While the Corporation does not hold an ownership interest in SAE Nigeria, risk of loss on the West Nigeria Project, including credit risk, is the Corporation's sole responsibility. All profits from the West Nigeria Project remain with the Corporation. Based on its power to influence the significant business activities of SAE Nigeria during the completion of the West Nigeria Project, its responsibility to absorb contract losses and the proportion of SAE Nigeria's operations dedicated to the West Nigeria Project, the Corporation was determined to be the primary beneficiary under GAAP and as such consolidated SAE Nigeria for the term of the West Nigeria Project. As of August 31, 2017, the project had been completed and all amounts due from SAE Nigeria to the Corporation had been repaid. As such, the Corporation no longer holds a variable interest in SAE Nigeria and no longer has a controlling interest in SAE Nigeria and, as a result, its results are no longer combined with the Corporation's.

SAExploration Holdings, Inc. and Subsidiaries
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except for share and per share amounts and as otherwise noted)

NOTE 14 — RELATED PARTY TRANSACTIONS

Jeff Hastings, the Corporation's Chief Executive Officer and Chairman of the Board of Directors, owns and controls Speculative Seismic Investments, LLC ("SSI"), which holds 27,000 shares of the Corporation's common stock. SSI is a lender under the Corporation's Senior Loan Facility in the principal amount of \$642 and exchanged \$2,352 of the Corporation's Senior Secured Notes for \$1,334 of Second Lien Notes in the Restructuring consummated on July 27, 2016. SSI subsequently sold the \$1,334 of Second Lien Notes in November 2016 representing \$1,176 of face value and \$158 of interest paid in kind for the period outstanding, and is no longer a holder of any Second Lien Notes. In addition, in September 2017, Mr. Hastings committed to funding \$400 of the Credit Facility of which the Corporation has drawn \$125 of that commitment as of September 30, 2017. Mr. Hastings also controls CLCH, LLC, which holds 24,221 shares of the Corporation's common stock. Pursuant to a registration rights agreement dated June 24, 2013, CLCH had one right to demand registration of its shares of the Corporation's common stock that it acquired in the Merger, as well as piggy-back rights on any offering of the Corporation's common stock or securities exercisable or exchangeable for our common stock. CLCH has exercised its piggy-back registration rights, and all 24,221 of its shares were registered for resale pursuant to a registration statement on Form S-3, Registration No. 333-213386, that became effective in September 2016. The Corporation bore the expense incurred in connection with the registration statement.

NOTE 15 — COMMITMENTS AND CONTINGENCIES

The Corporation is involved in various legal proceedings involving contractual and employment relationships, liability claims, and a variety of other matters. The outcome of these legal proceedings and other matters is not expected to have, either individually or in the aggregate, a material adverse effect on the Corporation's financial position, results of operations, or cash flows.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis of Financial Condition should be read in conjunction with the accompanying unaudited condensed consolidated financial statements as of September 30, 2017 and for the three and nine months ended September 30, 2017 and 2016 and the accompanying notes to the unaudited condensed consolidated financial statements. The following discussion and analysis contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth under "Risk Factors" in Part II of this Report. See "Forward-Looking Statements" below. Amounts are in thousands, except for share amounts and as otherwise noted.

Highlights

The following discussion is intended to assist in understanding our financial position at September 30, 2017, and our results of operations for the three and nine months ended September 30, 2017. Financial and operating results for the three months ended September 30, 2017 include:

- Revenue from services for the three months ended September 30, 2017 was \$22,452 compared to \$32,994 in 2016.
- Gross profit for the three months ended September 30, 2017 increased to \$1,471 from \$1,376 in 2016.
- Gross profit as a percentage of revenue for the three months ended September 30, 2017 increased to 6.6% from 4.2% in 2016.
- Operating loss for the three months ended September 30, 2017 decreased to a loss of \$4,534 from a loss of \$5,544 in 2016.
- Net loss for the three months ended September 30, 2017 decreased to a loss of \$13,845 from a loss of \$17,397 in 2016.
- Adjusted EBITDA for the three months ended September 30, 2017 decreased to negative \$1,155 from negative \$138 for 2016.
- Adjusted EBITDA as a percentage of revenue for the three months ended September 30, 2017 decreased to negative 5.1% from negative 0.4% in 2016.
- Cash and cash equivalents totaled \$13,537 as of September 30, 2017 compared to \$11,503 as of September 30, 2016.

Overview

We are an internationally-focused oilfield services company offering a full range of vertically-integrated seismic data acquisition and logistical support services in Alaska, Canada, South America, West Africa and Southeast Asia to our customers in the oil and natural gas industry. Our services include the acquisition of 2D, 3D, time-lapse 4D and multi-component seismic data on land, in transition zones between land and water, and offshore in depths reaching 3,000 meters. In addition, we offer a full suite of logistical support and in-field data processing services. Our customers include major integrated oil companies, national oil companies and independent oil and gas exploration and production companies. Our services are primarily used by our customers to identify and analyze drilling prospects and to maximize successful drilling, making demand for such services dependent upon the level of customer spending on exploration, production, development and field management activities, which is influenced by the fluctuation in oil and natural gas commodity prices. Demand for our services is also impacted by long-term supply concerns based on national oil policies and other country-specific economic and geopolitical conditions. We have expertise in logistics and focus upon providing a complete service package, particularly in our international operations, which allows efficient movement into remote areas, giving us what we believe to be a strategic advantage over our competitors. Many of the areas of the world where we work have limited seasons for seismic data acquisition, requiring high utilization of key personnel and redeployment of equipment from one part of the world to another. All of our remote area camps, drills and support equipment are easily containerized and made for easy transport to locations anywhere in the world. As a result, if conditions deteriorate in a current location or demand rises in another location, we are able to quickly redeploy our crews and equipment to other parts of the world. By contrast, we tend to subcontract out more of our services in North America than in other regions, and our North American revenues tend to be more dependent upon data acquisition services rather than our full line of services.

While our revenues from services are mainly affected by the level of customer demand for our services, operating revenue is also affected by the bargaining power of our customers relating to our services, as well as the productivity and utilization levels of our

data acquisition crews. Our logistical expertise can be a mitigating factor in service price negotiation with our customers, allowing us to maintain larger margins in certain regions of the world, particularly in the most remote or most challenging climates of the world. Factors impacting the productivity and utilization levels of our crews include permitting delays, downtime related to inclement weather, decrease in daylight working hours during winter months, the time and expense of repositioning crews, the number and size of each crew, and the number of recording channels available to each crew. We have the ability to optimize the utilization of personnel and equipment, which is a key factor to stabilizing margins in the various regions in which we operate. Specifically, we have invested in equipment that is lighter weight and more easily shipped between the different regions. The ability to reduce both the costs of shipment and the amount of shipping time increases our operating margins and utilization of equipment. Similar logic applies to the utilization of personnel. We focus on employing field managers who are mobile and have the expertise and knowledge of many different markets within our operations. This allows for better timing of operations and the ability of management staff to run those operations while at the same time minimizing personnel costs. An added benefit of a highly mobile field management team is better internal transfer of skill and operational knowledge and the ability to spread operational efficiencies rapidly between the various regions.

Generally, the choice of whether to subcontract out services depends on the expertise available in a certain region and whether that expertise is more efficiently obtained through subcontractors or by using our own labor force. For the most part, certain front-end services, such as permitting and surveying, are subcontracted within North America and our personnel are used in other regions where we operate. When subcontractors are used, we manage them and require that they comply with our work policies and quality, health, safety and environmental ("QHSE") objectives.

Our customers continue to request increased recording channel capacity on a per crew or project basis in order to produce higher resolution images, to increase crew efficiencies and to allow us to undertake larger scale projects. In order to meet these demands, we routinely deploy a variable number of land and marine channels through various sources with multiple crews in an effort to maximize asset utilization and meet customer needs. We believe that increased channel counts and more flexibility of deployment will result in increased crew efficiencies, which we believe should translate into improved financial performance.

The acquisition of seismic data for the oil and gas industry is a highly competitive business. Factors such as price, experience, asset availability and capacity, technological expertise and reputation for dependability and safety of a crew significantly affect a potential customer's decision to award a contract to us or one of our competitors. Our competitors include much larger companies with greater financial resources, more available equipment and more crews, as well as companies of comparable and smaller sizes. Our primary competitors are Compagnie Générale de Géophysique (CGG), Geokinetics, Inc., Global Geophysical Services, Inc., BGP, Inc. and Dawson Geophysical Company. In addition to those companies, we also compete for projects from time to time with smaller seismic companies that operate in local markets.

Contracts

We conduct data acquisition services under master service agreements with our customers that set forth certain obligations of our customers and us. A supplemental agreement setting forth the terms of a specific project, which may be canceled by either party on short notice, is entered into for every data acquisition project. The supplemental agreements are either "turnkey" agreements that provide for a fixed fee to be paid to us for each unit of data acquired, or "term" agreements that provide for a fixed hourly, daily or monthly fee during the term of the project. Turnkey agreements generally mean more profit potential, but involve more risks due to potential crew downtimes or operational delays. Under term agreements, we are ensured a more consistent revenue stream with improved protection from crew downtime or operational delays, but with a decreased profit potential.

Our contracts for proprietary seismic data acquisition services reflect a high proportion of turnkey contracts, which is preferred by our customers because it shifts much of the business interruption risk onto us; however, it provides us with the greatest opportunity to maximize the advantage we have from being a full-service provider and the operational efficiencies created by our vertical integration. We attempt to negotiate on a project-by-project basis some level of weather downtime protection within the turnkey agreements and increasingly use hybrid contracts where we may share with our customers a certain degree of the risks for certain business interruptions, such as weather, community relations and permitting delays, that are outside of our control.

How We Generate Revenues

We provide a full range of seismic data acquisition services, including in-field data processing services, and related logistics services. We currently provide our services on only a proprietary basis to our customers and the seismic data acquired is owned by our customers once acquired.

Our seismic data acquisition services include the following:

Program Design, Planning and Permitting. A seismic survey is initiated at the time the customer requests a proposal to acquire seismic data on its behalf. We employ an experienced design team, including geophysicists with extensive experience in 2D, 3D and time-lapse 4D survey design, to recommend acquisition parameters and technologies to best meet the customer's exploration objectives. Our design team analyzes the request and works with the customer to put an operational, personnel and capital resource plan in place to execute the project.

Once a seismic program is designed, we assist the customer in obtaining the necessary permits from governmental authorities and access rights of way from surface and mineral estate owners or lessees where the survey is to be conducted. It is usually our permitting crew that is first to engage with the local residents and authorities. We believe our knowledge of the local environment, cultural norms and excellent QHSE track record enable us to engender trust and goodwill with the local communities, which our customers are able to leverage over the longer exploration cycle in the area.

Camp Services. We have developed efficient processes for assembling, operating and disassembling field camps in challenging and remote project locations. We operate our camps to ensure the safety, comfort and productivity of the team working on each project and to minimize our environmental impact through the use of wastewater treatment, trash management, water purification, generators with full noise isolation and recycling areas.

In areas like South America and Southeast Asia, logistical support needs to be in place to establish supply lines for remote jungle camps. To insure the quality of services delivered to these remote camps, we own ten supply and personnel river vessels to gain access to remote jungle areas. We also have five jungle base camps and a series of 150 fly camps that act as advance camps from the main project camp. Each of these jungle base camps contains a full service medical facility complete with doctors and nurses in the remote chance any potential injuries need to be stabilized for medical transport. The camps are equipped with full meal kitchens held to high standards of cleanliness, sleeping and recreational quarters, power supply, communications links, air support, water purification systems, black water purification systems, offices, repair garages, fuel storage and many more support services.

Survey and Drilling. In a typical seismic recording program, the first two stages of the program are survey and drilling. Once the permitting is completed, our survey crews enter the project areas and begin establishing the source and receiver placements in accordance with the survey design agreed to by the customer. The survey crew lays out the line locations to be recorded and, if explosives are being used, identifies the sites for shot-hole placement. The drilling crew creates the holes for the explosive charges that produce the necessary acoustical impulse.

The surveying and drilling crews are usually employed by us but may be third party contractors depending on the nature of the project and its location. Generally, the choice of whether to subcontract out services depends on the expertise available in a certain region and whether that expertise is more efficiently obtained through subcontractors or by using our own labor force. For the most part, services are subcontracted within Alaska and Canada and our personnel are used in other regions where we operate. When subcontractors are used, we manage them and require that they comply with our work policies and QHSE objectives.

In Alaska and Canada, the surveying and drilling crews are typically provided by third party contractors but are supervised by our personnel. In Alaska and Canada, our vibroseis source units consist of the latest source technology, including eight AHV IV 364 Commander Vibrators and twelve environmentally friendly IVI mini vibrators, complete with the latest Pelton DR electronics. In South America and Southeast Asia, we perform our own surveying and drilling, which is supported by up to 200 drilling units, including people-portable, low impact self-propelled walk behind, track-driven and heli-portable deployed drilling rigs. Our senior drilling staff has a combined work experience of over 50 years in some of the most challenging environments in the world. On most programs there are multiple survey and drilling crews that work at a coordinated pace to remain ahead of the data recording crews.

Recording. We use equipment capable of collecting 2D, 3D, time-lapse 4D and multi-component seismic data. We utilize vibrator energy sources or explosives depending on the nature of the program and measure the reflected signals with strategically placed sensors. Onshore, geophones are manually buried, or partially buried, to ensure good coupling with the surface and to reduce wind noise. Offshore, the reflected signals are recorded by either hydrophones towed behind a survey vessel or by geophones placed directly on the seabed. We increasingly employ ocean bottom nodes positioned by remote operated vehicles on the seafloor in our marine data acquisition operations. We have available over 27,500 owned land and marine seismic recording channels with the ability to access additional equipment, as needed, through rental or long-term leasing sources. All of our systems record equivalent seismic information but vary in the manner by which seismic data is transferred to the central recording unit, as well as their operational flexibility and channel count expandability. We utilize 11,500 channels of Sercel 428/408 equipment, 6,000 channels of Fairfield Land Nodal equipment and 10,000 channels of Geospace GSX equipment.

Historically, we have made significant capital investments to increase the recording capacity of our crews by increasing channel count and the number of energy source units we operate. This increase in channel count demand is driven by customer needs and

is necessary in order to produce higher resolution images, increase crew efficiencies and undertake larger scale projects. In response to project-based channel requirements, we routinely deploy a variable number of channels with a variable number of crews in an effort to maximize asset utilization and meet customer needs. When recording equipment is at or near full utilization, we utilize rental equipment from strategic suppliers to augment our existing inventories. We believe we will realize the benefit of increased channel counts and flexibility of deployment through increased crew efficiencies, higher revenues and increased margins.

Historically, we dedicated a significant portion of our capital investment to purchasing and leasing wireless recording systems rather than the traditional wired systems. We utilize this equipment as primarily stand-alone recording systems, but on occasion it is used in conjunction with cable-based systems. The wireless recording systems allow us to gain further efficiencies in data recording and provide greater flexibility in the complex environments in which we operate. In addition, we have realized increased crew efficiencies and lessened the environmental impact of our seismic programs due to the wireless recording systems because they require the presence of fewer personnel and less equipment in the field. We believe we will experience continued demand for wireless recording systems in the future.

We also utilize multi-component recording equipment on certain projects to further enhance the quality of data acquired and help our customers enhance their development of producing reservoirs. Multi-component recording involves the collection of different seismic waves, including shear waves, which aids in reservoir analysis such as fracture orientation and intensity in shales and allows for more descriptive rock properties.

Reclamation. We have experienced teams responsible for reclamation of the areas where work has been performed so as to minimize the environmental footprint from the seismic program. These programs can include reforestation or other activities to restore the natural landscape at our worksites.

In-field Data Processing. Our knowledgeable and experienced team provides our customers with superior quality in-field data processing. We believe that our strict quality control processes meet or surpass industry-established standards, including identifying and analyzing ambient noise, evaluating field parameters and employing obstacle-recovery strategies. Using the latest technology, our technical and field teams electronically manage customer data from the field to the processing office, minimizing time between field production and processing. All of the steps employed in our in-field data processing sequence are tailored to the particular customer project and objectives.

Results of Operations

The following tables set forth, for the periods indicated, certain financial data derived from our unaudited condensed consolidated statements of operations. Amounts are presented in thousands unless otherwise indicated. Percentages shown in the tables below are percentages of total revenue.

Three Months Ended September 30, 2017 Compared to Three Months Ended September 30, 2016

Our operating results for the three months ended September 30, 2017 and 2016 are highlighted below:

	Three Months Ended September 30,			
	2017	% of Revenue	2016	% of Revenue
Revenue from services:				
North America	\$ 2,723	12.1 %	\$ 734	2.2 %
South America	19,729	87.9 %	32,111	97.3 %
Southeast Asia	—	— %	149	0.5 %
West Africa	—	— %	—	— %
Total revenue	22,452	100.0 %	32,994	100.0 %
Gross profit	1,471	6.6 %	1,376	4.2 %
Selling, general and administrative expenses	6,005	26.8 %	6,920	21.0 %
Loss from operations	(4,534)	(20.2)%	(5,544)	(16.8)%
Other expense, net	(7,361)	(32.8)%	(10,707)	(32.5)%
Provision for income taxes	1,950	8.7 %	1,146	3.4 %
Less net income (loss) attributable to noncontrolling interest	(75)	(0.3)%	15	0.1 %
Net loss attributable to the Corporation	\$ (13,770)	(61.4)%	\$ (17,412)	(52.8)%

Nine Months Ended September 30, 2017 Compared to Nine Months Ended September 30, 2016

Our operating results for the nine months ended September 30, 2017 and 2016 are highlighted below:

	Nine Months Ended September 30,			
	2017	% of Revenue	2016	% of Revenue
Revenue from services:				
North America	\$ 50,518	41.3 %	\$ 81,739	45.3 %
South America	32,224	26.4 %	96,723	53.7 %
Southeast Asia	4,266	3.5 %	1,734	1.0 %
West Africa	35,172	28.8 %	—	— %
Total revenue	122,180	100.0 %	180,196	100.0 %
Gross profit	25,598	20.9 %	44,176	24.5 %
Selling, general and administrative expenses	18,880	15.4 %	20,879	11.6 %
Income from operations	6,718	5.5 %	23,297	12.9 %
Other expense, net	(25,401)	(20.8)%	(18,643)	(10.3)%
Provision for income taxes	4,175	3.4 %	4,550	2.5 %
Less net income attributable to noncontrolling interest	1,972	1.6 %	3,021	1.7 %
Net loss attributable to the Corporation	\$ (24,830)	(20.3)%	\$ (2,917)	(1.6)%

Revenue from Services.

North America: Revenue in North America for the three months ended September 30, 2017 increased by \$1,989 or 271.0% compared to the three months ended September 30, 2016 and for the nine months ended September 30, 2017 decreased by \$31,221 or 38.2% compared to the nine months ended September 30, 2016, primarily in Alaska. In Alaska, we experienced a significant decrease in the overall number of projects performed in 2017 compared to the same period in 2016. The decrease in activity was mainly due to uncertainties and changes in the state legislation affecting oil and gas exploration activities and overall oil and gas market conditions. There is no active revenue in the three months ended September 30, 2017 due to the seasonality of operations in Alaska. Activity in Canada increased slightly when comparing the first three and nine months of 2017 to the same periods in 2016 due to marginal improvement in market conditions in Canada and the timing of commencement of the season.

South America: Revenue in South America for the three months ended September 30, 2017 decreased by \$12,382 or 38.6% compared to the three months ended September 30, 2016. Revenue in South America for the nine months ended September 30, 2017 decreased by \$64,499 or 66.7% compared to the nine months ended September 30, 2016. The substantial decrease in revenue in South America is primarily due to a large project in Bolivia in 2016 which was substantially completed during the third quarter of 2016 versus small projects in Bolivia in 2017. This decrease was partially offset by an increase in revenue in Colombia for the three and nine months ended September 30, 2017 compared to the same periods in 2016. The increase was primarily due to two moderate size projects which commenced in the second quarter of 2017 and were completed during the third quarter of 2017 compared to smaller projects for the same period in 2016.

Southeast Asia: Revenues in Southeast Asia for the three months ended September 30, 2017 decreased by \$149 compared to the three months ended September 30, 2016. Revenues in Southeast Asia for the nine months ended September 30, 2017 increased by \$2,532 compared to the nine months ended September 30, 2016. The increase in 2017 revenue for Southeast Asia was primarily due to a small project in New Zealand in 2017 versus no active revenue in 2016 in Southeast Asia.

West Africa: There was no active revenue in West Africa for the three months ended September 30, 2017 and 2016. Revenues in West Africa for the nine months ended September 30, 2017 increased by \$35,172 compared to the nine months ended September 30, 2016. The increase in 2017 revenue for West Africa was primarily due to a large ocean bottom project in Nigeria which commenced in late December 2016 and was completed during the first quarter of 2017.

Gross Profit. Gross profit increased slightly to \$1,471, or 6.6% of revenues for the three months ended September 30, 2017 from \$1,376, or 4.2% of revenues, for the three months ended September 30, 2016. Gross profit decreased to \$25,598, or 20.9% of revenues, for the nine months ended September 30, 2017 from \$44,176, or 24.5% of revenues, for the nine months ended September 30, 2016. The increase in gross profit as a percentage of revenue for the three months ended September 30, 2017 compared to the same period in 2016 was due to increased efficiency in project execution in South America and decreased depreciation expense due to the sale of ocean bottom nodal equipment in the fourth quarter of 2016. The deterioration in gross profit as a percentage of revenue for the nine months ended September 30, 2017 compared to the same period in 2016 was primarily related to increased pricing pressure due to a continued depressed oil and gas market which has resulted in tightening margins. This was partially offset by a decrease in depreciation expense due to the sale of ocean bottom nodal equipment in the fourth quarter of 2016 and an increase in revenue in West Africa. Although our costs primarily vary with revenue, the substantial decrease in revenue we have seen has caused significant decreases in our gross profit and gross profit margins.

Adjusted Gross Profit. Adjusted gross profit decreased to \$4,280, or 19.1% of revenues, for the three months ended September 30, 2017 from \$5,525, or 16.7% of revenues, for the three months ended September 30, 2016. Adjusted gross profit decreased to \$34,605, or 28.3% of revenues, for the nine months ended September 30, 2017 from \$56,696, or 31.5% of revenues, for the nine months ended September 30, 2016. The increase in adjusted gross profit as a percentage of revenue for the three months ended September 30, 2017 was primarily due to increase efficiency in project execution in South America versus the same period in 2016. The decrease in adjusted gross profit as a percentage of revenues for the nine months ended September 30, 2017 is primarily due to decreased revenue and increased pricing pressure due to the downturn in the oil and gas market.

Selling, General and Administrative Expenses ("SG&A"). For the three months ended September 30, 2017, SG&A expenses decreased by \$915 to \$6,005 or 26.8% of revenue compared to \$6,920 or 21.0% of revenue for the three months ended September 30, 2016. For the nine months ended September 30, 2017, SG&A expenses decreased by \$1,999 to \$18,880 or 15.4% of revenue, compared to \$20,879, or 11.6% of revenue, for the nine months ended September 30, 2016. SG&A expense decreased due to the decrease in revenue, severance costs and payroll related liabilities partially offset by an increase in share-based compensation expense related to the 2016 Amended and Restated Plan. The increase in SG&A as a percentage of revenue is due to the substantial decrease in revenue and an increase in share-based compensation expense. Severance costs from headcount reductions incurred in our Peru, Colombia, Canada, Alaska and corporate locations were \$32 and \$146 for the three and nine months ended

September 30, 2017, respectively, compared to \$290 and \$700 for the three and nine months ended September 30, 2016, respectively.

Other Expense. Other expense decreased by \$3,346 for the three months ended September 30, 2017, primarily due to the following factors:

- Increase in foreign currency gains primarily related to unrealized transactions, in Canada and Brazil;
- Decrease in costs incurred for the Restructuring of \$2,683; partially offset by
- Increase in foreign currency losses due to losses from physical trades of the Nigerian currency for US dollars totaling \$545.

Other expense increased by \$6,758 for the nine months ended September 30, 2017, primarily due to the following factors:

- Increase in interest expense related to the amortization of deferred financing costs for the senior loan facility;
- Decrease in foreign currency gains primarily related to unrealized transactions, in early 2016, related to the weakening US Dollar compared to Canadian and South American currencies creating large gains;
- Increase in foreign currency loss due to losses from physical trades of the Nigerian currency for US dollars totaling \$1,310; partially offset by
- Decrease in costs incurred for the Restructuring of \$5,017.

Provision for Income Taxes. For the three months ended September 30, 2017, the provision for income taxes was \$1,950 representing a (16.4)% effective tax rate compared to the provision for income taxes of \$1,146 for the three months ended September 30, 2016 representing a (7.1)% effective tax rate. For the nine months ended September 30, 2017, the provision for income taxes was \$4,175 representing a (22.3)% effective tax rate compared to the provision for income taxes of \$4,550 for the nine months ended September 30, 2016 representing a 97.8% effective tax rate. The decrease in the 2017 effective tax rate is primarily due to several factors including fluctuations in earnings among the various jurisdictions in which we operate, decreases in permanent tax differences offset by increases in deferred tax valuation allowances related to U.S. losses and net operating loss carryforwards available to be used in future periods.

We record income tax expense for interim periods on the basis of an estimated annual effective tax rate. The estimated annual effective tax rate is recomputed on a quarterly basis and may fluctuate due to changes in forecasted annual operating income, positive or negative changes to the valuation allowance for net deferred tax assets, and changes to actual or forecasted permanent book to tax differences. We believe that without positive evidence, it is more likely than not that the benefit from certain net operating loss ("NOL") carryforwards and foreign tax credits may not be realized. In recognition of this risk, we maintain a full valuation allowance for the deferred tax assets relating to these NOL carryforwards and foreign tax credits of certain countries.

Net Income (Loss) Attributable to the Corporation. For the three months ended September 30, 2017, net loss attributable to the Corporation was \$13,770 compared to a net loss of \$17,412 for the three months ended September 30, 2016.

The decrease in net loss for the three months ended September 30, 2017 was primarily due to the following factors:

- Increase in foreign currency gains primarily related to unrealized transactions, in Canada and Brazil;
- Decrease in costs incurred for the Restructuring of \$2,683; and
- Decrease in SG&A expenses of \$915 due to lower revenue; partially offset by
- Increase in foreign currency losses due to losses from physical trades of the Nigerian currency for US dollars totaling \$545.

For the nine months ended September 30, 2017, net loss attributable to the Corporation was \$24,830 compared to a net loss of \$2,917 for the nine months ended September 30, 2016.

The increase in net loss for the nine months ended September 30, 2017 was primarily due to the following factors:

- Lower gross profit primarily due to lower revenue;
- Increase in interest expense primarily due to the increase in amortization of deferred financing costs related to our Senior Loan Facility of \$10,405;
- Decrease in gains on foreign currency transactions due to large gains in 2016 related to the strengthening US dollar during that time period;
- Increase in foreign currency losses due to trades and foreign currency exposure on our project in Nigeria; and

- Proportionately higher provision for income taxes; partially offset by
- Decrease in SG&A expenses primarily due to the lower revenue of \$1,999; and
- Decrease in costs of debt restructuring of \$5,017.

Adjusted EBITDA. For the three months ended September 30, 2017, adjusted EBITDA decreased to negative \$1,155 from negative \$138 for the three months ended September 30, 2016. For the nine months ended September 30, 2017, adjusted EBITDA decreased to \$17,774 from \$38,264 for the nine months ended September 30, 2016. The decrease was primarily due to decreased revenue resulting in decreased gross profit as discussed above.

Backlog. Our backlog as of September 30, 2017 was \$52,499 which we primarily expect to recognize as revenues in 2018. The backlog is primarily in South America and North America.

Liquidity and Capital Resources

Working Capital. Working capital as of September 30, 2017 was \$14,739 compared to \$40,807 as of December 31, 2016. The decrease in working capital for the first nine months of 2017 was principally due to the reclassification of the Senior Loan Facility from long term to short term partially offset by the related reclassification of associated deferred loan issuance costs. An additional \$6.0 million of accounts receivable was reclassified from short term to long term also contributing to the decrease in working capital. See Note 3 for further information on this receivable. This was partially offset by cash flow generated in operations during the first nine months of 2017.

Our Prior Credit Agreement, which we have historically used for short term operating needs, was scheduled to expire in November 2017. In September 2017, we entered into the Credit Facility which provides for funding for our working capital needs up to \$16,000 subject to an approval process for borrowings exceeding \$5,000. It has a maturity date of January 2, 2020, provided that the maturity will be September 14, 2018 if there are any outstanding Senior Secured Notes or Second Lien Notes at that time. In addition, on September 8, 2017, we entered into an amendment which extended the maturity date of \$29,000 of the principal balance of our Senior Loan Facility to January 2, 2020; provided that the maturity will be January 2, 2019 if there are any outstanding Senior Secured Notes or Second Lien Notes at that time. See additional information on these facilities below.

Cash Flows and Liquidity. Cash provided by operations for the nine months ended September 30, 2017 was \$5,144, compared to cash used by operations of \$13,282 for the nine months ended September 30, 2016, an increase in cash provided by operations of \$18,426. Cash provided by net loss and net cash adjustments to net income decreased to \$6,660 for the nine months ended September 30, 2017 compared to cash provided by net income and net cash adjustments to net income of \$18,526 for the nine months ended September 30, 2016, as a result of our net loss in 2017 partially offset by an increase in amortization of deferred financing costs related to our Senior Loan Facility, an increase in payment in kind interest on our Second Lien Notes and a decrease in foreign currency gains and depreciation and amortization. Net changes in operating assets and liabilities resulted in cash used of \$1,516 for the nine months ended September 30, 2017 compared to cash used of \$31,808 for the nine months ended September 30, 2016. The significant cash used last year was primarily due to the large increase in unpaid accounts receivable described below and in Note 3.

At September 30, 2017, our largest account receivable from one customer was \$78.1 million, representing 87% of total consolidated accounts receivable. This customer was relying on monetization of Tax Credits under a State of Alaska Tax Credit program, either from proceeds from the State of Alaska or from third party financing sources, to satisfy the accounts receivable. There remains substantial uncertainty regarding the timing of reimbursement from the State of Alaska and the availability of third party financing to the customer, or to us, in order for us to collect on our accounts receivable.

Due to the customer's inability to monetize the Tax Credits, our customer has assigned \$89.0 million of Tax Credits to us so that we can seek to monetize these Tax Credits and apply the resulting cash, as monetization occurs, toward the customer's repayment of its overdue account receivable. We have recorded a total reduction of the accounts receivable balance of \$3.5 million related to the monetization of Tax Credits during the nine months ended September 30, 2017. Based upon the uncertainty regarding the timing to monetize the Tax Credits, we have classified \$44.0 million and \$38.0 million as a long term accounts receivable as of September 30, 2017 and December 31, 2016, respectively. We reclassified an additional \$6.0 million to long term in the nine months ended September 30, 2017 due to delays in monetization of Tax Credit certificates related to the legislation discussed below.

As of September 30, 2017, the State of Alaska has completed its audit of approximately \$46.3 million of Tax Credit applications. This audit resulted in us receiving approximately \$40.5 million of Tax Credit certificates from the State of Alaska. The State of Alaska disallowed approximately \$5.8 million of what we believe should otherwise be eligible expenditures. Our customer filed an appeal of this decision on October 18, 2016 seeking a reversal of the disallowed amount. We expect additional Tax Credit

certificates from the State of Alaska representing approximately \$42.7 million to be issued during the remainder of 2017 and the beginning of 2018.

There continues to be significant uncertainty regarding the timely payment by the State of Alaska of its obligations on issued Tax Credit certificates as well as our ability to accurately estimate the timeframe for such payments. We continue to explore options to monetize the Tax Credit certificates, including the option we have utilized to sell the certificates in the secondary market at a discount to purchasers that are able to apply the certificates to reduce their own Alaskan tax liabilities. There is a risk that any monetization of the Tax Credit certificates, however, will reflect a substantial discount and may be insufficient to fully repay the customer's outstanding accounts receivable. Should this result, we may be required to record an impairment to the amount due from our customer. In addition, we believe the secondary market has been negatively impacted by the uncertainty about future political developments or legislative actions affecting oil and gas exploration activities and overall oil and gas market conditions. This has currently delayed our ability to monetize our Tax Credit certificates. We believe recent legislation actions should positively affect the secondary market, however, we do not control the timing or outcome of the actions in this market. We are relying on the secondary market to monetize the Tax Credit certificates and, if it does not improve, we may be required to record an impairment to the amount due from our customer. We also believe that rising oil prices may increase the market for the Tax Credit certificates, but there can be no assurance that prices will increase sufficient to improve the market or when it might occur.

In addition to monetization of the Tax Credits, we have other possible ways for us to receive payments on our accounts receivable from our customer. We have possession of the seismic data and will continue to hold it until we have received payment in full of our accounts receivable. We continue to assist the customer in actively marketing and licensing of the seismic data we collected on behalf of our customer. Licensing revenues received must be paid to us in satisfaction of our accounts receivable. In addition, subject to any licenses granted, the customer has the right to sell the data and apply the proceeds to our receivables. We believe that the receipt of these licensing revenues and sales proceeds may be sufficient to cover the difference between the owed accounts receivable and the cash we are able to generate by monetization of our Tax Credits, but there can be no assurance that it will occur or when any such payments will be received.

Due to the delay in our ability to monetize the Tax Credit certificates, we entered into the Second Amendment to the Senior Loan Facility which extended the maturity date to January 2, 2020; provided that the maturity will be January 2, 2019 if there are any outstanding Senior Secured Notes or Second Lien Notes at that time, among other things.

We also continue to explore a range of possible other transactions to address our cash flow and liquidity issues and our longer term need to realign our capital structure with our current business and the continued downturn in the oil and natural gas industry.

Capital Expenditures. Cash used in investing activities for the nine months ended September 30, 2017 was \$383, compared to \$277 for the nine months ended September 30, 2016, an increase in cash used of \$106. Our 2017 capital expenditures primarily relate to remaining cash payments for the 2016 purchase of a set of vibrators as well as the purchase of additional camp equipment and vibrators in the first quarter of 2017. The proceeds from sale of assets represents cash received from the sale of ocean bottom nodal equipment in the fourth quarter of 2016. Based on current information, we expect our total capital expenditures for 2017 to be under \$5.0 million. This amount will permit us to maintain the operational capability of our current fleet of equipment so that we can execute ongoing projects without delay or increased costs. This amount, however, will not allow us to purchase any new technology or make any significant upgrades to existing capital assets.

Financing. Cash used in financing activities for the nine months ended September 30, 2017 was \$3,029, compared to cash provided by financing activities of \$14,332 for the nine months ended September 30, 2016, an increase in cash used of \$17,361. The increase in cash used by financing activities during the nine months ended September 30, 2017 was primarily due to our net repayments of our Prior Credit Agreement in 2017 versus net borrowings under our Prior Credit Agreement and our Senior Loan Facility during 2016.

Senior Secured Notes and Second Lien Notes. On July 2, 2014, we entered into an indenture under which we issued \$150,000 of senior secured notes due July 15, 2019, in a private offering to qualified institutional buyers pursuant to Rule 144A under the Securities Act and to non-U.S. persons in offshore transactions pursuant to Regulation S under the Securities Act. On June 19, 2015, all outstanding senior secured notes were exchanged for an equal amount of new senior secured notes ("Senior Secured Notes"), which are substantially identical in terms to the existing senior secured notes except that the Senior Secured Notes are registered under the Securities Act of 1933, as amended. In addition, on August 26, 2015, we exchanged \$10,000 face value of Senior Secured Notes for 2,366,307 shares of our common stock. The Senior Secured Notes bear interest at the annual rate of 10% payable semi-annually in arrears on January 15 and July 15 of each year, commencing on January 15, 2015.

As a part of the Restructuring, on June 24, 2016 we commenced an offer to exchange each \$1 of the Senior Secured Notes for (i) \$0.50 of newly issued 10% second lien notes due 2019 ("Second Lien Notes") and (ii) 46.41 shares of newly issued common stock

(giving effect to a 135-for-1 reverse stock split that was effected in connection with closing of the Exchange Offer). On the closing date, a total of \$138,128 face value of the Senior Secured Notes were exchanged for (i) \$76,523 Second Lien Notes, including \$7,459 Second Lien Notes representing accrued and unpaid interest and (ii) 6,410,502 shares of common stock. The exchange was accounted for as a modification during the three-month period ending September 30, 2016. The Second Lien Notes were recorded at the net carrying value of the Senior Secured Notes exchanged of \$134,522, less the fair value of our common stock issued to participating noteholders of \$65,003, plus the accrued and unpaid interest of \$7,459 included in the exchange. The fair value of the common stock was determined using the probability-weighted expected return method based on a combination of the income and market approaches and a mergers and acquisition scenario. In connection with the exchange and Restructuring, we recognized debt restructuring costs of \$2,891 and \$5,225 during the three and nine month periods ended September 30, 2016, respectively.

The Second Lien Notes are substantially similar to the Senior Secured Notes with the following modifications:

- The Second Lien Notes have a maturity date of September 24, 2019, provided that, if any of the Senior Secured Notes remain outstanding as of March 31, 2019, the maturity date of the Second Lien Notes will become April 14, 2019 upon the vote of the holders of a majority of the then-outstanding Second Lien Notes.
- The liens securing the Second Lien Notes are junior to the liens securing the Senior Loan Facility and senior to the liens securing the Senior Secured Notes.
- Interest on the Second Lien Notes is payable quarterly. We had the option to elect to pay interest on the Second Lien Notes in kind with additional Second Lien Notes for the first twelve months of interest payment dates, provided that, if we made the election, the interest on the Second Lien Notes for such in kind payments accrued at a per annum rate 1% percent higher than the cash interest rate of 10%. We elected to pay interest in kind during the three and nine months ended September 30, 2017 of \$379 and \$4,848, respectively and during the three and nine months ended September 30, 2016 of \$1,473.
- The Second Lien Notes have a special redemption right at par of up to \$35 million of the issuance to be paid out of the proceeds of the Alaska Tax Credit certificates and is conditioned upon payment in full of the Credit Facility and the Senior Loan Facility.
- The Second Lien Notes include a make-whole provision requiring that if the Second Lien Notes are accelerated or otherwise become due and payable prior to their stated maturity due to an Event of Default (including but not limited to a bankruptcy or liquidation (including the acceleration of claims by operation of law)), then the applicable premium payable with respect to an optional redemption will also be immediately due and payable, along with the principal of, accrued and unpaid interest on, the Second Lien Notes and constitutes part of the obligations in respect thereof as if such acceleration were an optional redemption of the Second Lien Notes, in view of the impracticability and extreme difficulty of ascertaining actual damages and by mutual agreement of the parties as to a reasonable calculation of each holder's lost profits as a result thereof.

The indentures contain covenants which include limitations on our ability to: (i) transfer or sell assets; (ii) pay dividends, redeem subordinated indebtedness or make other restricted payments; (iii) incur or guarantee additional indebtedness or, with respect to our restricted subsidiaries, issue preferred stock; (iv) create or incur liens; (v) incur dividend or other payment restrictions affecting its restricted subsidiaries; (vi) consummate a merger, consolidation or sale of all or substantially all of its or its subsidiaries' assets; (vii) enter into transactions with affiliates; (viii) engage in business other than its current business and reasonably related extensions thereof; and (ix) take or omit to take any actions that would adversely affect or impair in any material respect the collateral securing the Senior Secured Notes and the Second Lien Notes. We were in compliance with the indenture covenants as of September 30, 2017.

For a complete discussion of the terms and security for the Senior Secured Notes and Second Lien Notes, see Note 8 of Notes to Consolidated Financial Statements included in our 10-K.

We may from time to time seek to retire or purchase our outstanding Senior Secured Notes and Second Lien Notes through cash purchases and/or exchanges for equity securities, in open market purchases, privately negotiated transactions or otherwise. Such repurchases or exchanges, if any, will depend on prevailing market conditions, the availability of cash and our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

Credit Facility

On September 22, 2017, SAExploration, Inc. ("Borrower"), SAExploration Holdings, Inc., and other domestic subsidiaries entered into the First Amended and Restated Credit and Security Agreement ("Credit Agreement") with the lenders from time to time party thereto (the "Lenders") and Cantor Fitzgerald Securities, as agent (the "Agent"). The Credit Agreement amends and restates the Credit and Security Agreement dated as of November 6, 2014 (the "Prior Credit Agreement") by and among the Borrower, the Guarantors, and Wells Fargo Bank, National Association as lender (the "Original Lender"). Immediately prior to entering into the Credit Agreement, the Original Lender sold its interest in the Prior Credit Agreement upon entering into the Loan Assignment, Assumption and Indemnity Agreement (the "Assignment Agreement") with the Agent who subsequently assigned those rights and obligations to one of our Supporting Holders (the "Assignee"). Two additional holders elected to join the Amended Credit Facility (together with the Assignee, the "Lenders"), including one holder as further described in Note 14.

The Credit Agreement provides for up to \$16,000 in borrowings secured primarily by the Borrower's North American assets, mainly accounts receivable and equipment subject to certain exclusions (the "Credit Facility"). The proceeds of the Credit Facility will primarily be used to fund the Borrower's working capital needs for its operations and for general corporate purposes. As of September 30, 2017, borrowings of \$5,000 were outstanding under the Credit Facility. Additional borrowings under the Credit Facility are subject to Lenders' sole discretion and must be in minimum increments of \$1,000.

Borrowings made under the Credit Facility bear interest at a rate of 10.25% per annum for the period from September 22, 2017 through and including March 22, 2018, 10.75% per annum for the period from March 23, 2018 through and including September 22, 2018 and 11.75% per annum for the period from September 23, 2018 and thereafter. The Credit Facility matures on January 2, 2020, provided that the maturity is September 14, 2018 if there are any outstanding Senior Secured Notes or Second Lien Notes at that time, unless terminated earlier.

In addition to the above and among other things, the Credit Agreement:

- eliminated the ability to redraw borrowings once repaid and placed certain restrictions on the ability to repay borrowings;
- eliminated the sub-facility for letters of credit;
- provided for mandatory with any proceeds from Tax Credits that exceeded \$15,000, unless waived by the Lenders; and
- removed certain covenants including those to maintain a minimum EBITDA specified above and to maintain eligible equipment of a certain amount.

The Credit Agreement was accounted for as a modification during the three-month period ended September 30, 2017. In connection with the Credit Agreement, deferred loan issuance costs totaling \$782 were recorded in the three and nine months ended September 30, 2017 consisting of \$400 of fees, payable to the Lenders, and \$382 of legal and investment banking costs.

The Credit Agreement contain covenants including, but not limited to (i) maintain and deliver to the Lenders, as required, certain financial reports, records and other items, (ii) subject to certain exceptions under the Credit Agreement, restrictions on our ability to incur indebtedness, create or incur liens, enter into fundamental changes to corporate structure or to the nature of our business, dispose of assets, permit a change in control, acquire non-permitted investments, enter into affiliate transactions or make distributions. The Credit Agreement also contains representations, warranties, covenants and other terms and conditions, including relating to the payment of fees to the Lenders, which are customary for agreements of this type. We were in compliance with the Credit Agreement covenants as of September 30, 2017.

The Credit Agreement also provides for customary events of default. If an event of default occurs and is continuing, then the Lenders may, among other options as described in the Credit Agreement, declare the obligations of the Borrower to be due and payable immediately or declare the funding obligations of the Lenders terminated immediately, subject to the terms of that certain Amended and Restated Intercreditor Agreement, dated as of June 29, 2016 (the "Intercreditor Agreement"), by and among the Original Lender, Wilmington Savings Fund Society, FSB, Delaware Trust Company and the Additional Noteholder Agent (as defined in the Intercreditor Agreement).

Prior Credit Agreement

Borrowings outstanding under the Prior Credit Agreement were \$5,844 as of December 31, 2016. Borrowings made under the Prior Credit Agreement bore interest, payable monthly, at a rate of daily three month LIBOR plus 3% (4.00% at December 31, 2016). The Prior Credit Agreement had a maturity date of November 6, 2017. The Prior Credit Agreement also included a sub-facility for letters of credit in amounts up to the lesser of the available borrowing base or \$10,000. Letters of credit were subject to Lender approval and a fee which accrued at the annual rate of 3% of the undrawn daily balance of the outstanding letters of credit, payable monthly. An unused line fee of 0.5% per annum of the daily average of the maximum amount under the Prior

Credit Agreement reduced by outstanding borrowings and letters of credit is payable monthly. As of December 31, 2016, there were no letters of credit outstanding under the sub-facility and the sub-facility was eliminated as a part of the amendment and restatement of the Prior Credit Agreement.

For a complete discussion of the terms and security for the Credit Agreement, see Note 6 of Notes to Consolidated Financial Statements included in our 10-K.

Senior Loan Facility. On June 29, 2016, we, as borrower, and each of our domestic subsidiaries, as guarantors (the "Guarantors"), entered into the Senior Loan Facility with the Supporting Holders of the Senior Secured Notes. In addition to the Supporting Holders, one additional holder of the senior secured notes subsequently elected to participate as a lender in the Senior Loan Facility based on their proportionate ownership of the Senior Secured Notes as discussed in Note 14. The Senior Loan Facility provides funding up to a maximum borrowing amount of \$30,000. Under the terms of the Senior Loan Facility, \$15,000 became immediately available and the remaining \$15,000 became available when we entered into the first amendment to the Senior Loan Facility. As of September 30, 2017 and December 31, 2016, borrowings of \$29,995 were outstanding under the Senior Loan Facility.

On September 8, 2017, we entered into a second amendment to the Senior Loan Facility which amended and extended a majority of the Senior Loan Facility (the "Second Amendment") held by consenting lenders representing \$29,000 of the total principal outstanding (the "Extended Loans"). The Second Amendment, among other things, for the Extended Loans:

- extended the maturity date to January 2, 2020; provided that the maturity will be January 2, 2019 if there are any outstanding Senior Secured Notes or Second Lien Notes at that time;
- increased the interest rate from 10% per year to 10.5% beginning on September 8, 2017 to, but not including, February 8, 2018, 11.5% per year for the succeeding six-month period, and 12.5% per year thereafter until the maturity, payable monthly in cash;
- provided for a mandatory prepayment with the proceeds from any Tax Credit; and
- provided for a call premium with respect to certain prepayments.

The remaining \$995 of advances under the Senior Loan Facility (the "Residual Loans") remain under the original terms of the Senior Loan Facility where borrowings bear interest at a rate of 10% per year, payable monthly and the maturity date is January 2, 2018, unless terminated earlier. The Residual Loans also require mandatory prepayment from the proceeds of any Tax Credit after the we have received \$15,000 in proceeds from the Tax Credits.

The Second Amendment was accounted for as a modification during the three-month period ending September 30, 2017. In connection with the Second Amendment, deferred loan issuance costs totaling \$914 were recorded in the three and nine months ended September 30, 2017. The deferred loan issuance costs recorded during these periods consisted of \$600 of fees, payable to the lenders of the Extended Loans, and \$314 of legal and investment banking costs. In connection with the initial borrowing, deferred loan issuance costs totaling \$29,091 and \$30,051 were recorded in the three and nine months ended September 30, 2016, respectively, which were recorded as a deferred loan issuance cost on the balance sheet. The deferred loan issuance costs recorded in the nine months ended September 30, 2016 consisted of a \$600 facility fee, \$1,026 in legal and investment banking costs, and \$28,425 for the fair value of 2,803,302 shares of our common stock issued to the lenders on July 27, 2016. The fair value of the common stock was determined using the probability-weighted expected return method based on a combination of the income and market approaches and a mergers and acquisition scenario.

The Senior Loan Facility is secured by substantially all of the collateral securing the obligations under (i) the Credit Agreement, (ii) the Senior Secured Notes and (iii) the Second Lien Notes, including the receivable due us discussed in Note 3. This security interest is junior to the security interest in such collateral securing the obligations under the Credit Facility and senior to the security interests in such collateral securing the obligations under the Second Lien Notes and the Senior Secured Notes.

The Senior Loan Facility contains negative covenants that restrict our and the Guarantors' ability to incur indebtedness, create or incur liens, enter into fundamental changes to our corporate structure or to the nature of our business, dispose of assets, permit a change in control to occur, make certain prepayments, other payments and distributions, make certain investments, enter into affiliate transactions or make certain distributions, and requires us to maintain and to deliver certain financial reports, projections, records and other items. The Senior Loan Facility also contains customary representations, warranties, covenants and other terms and conditions, including relating to the payment of fees to the Senior Loan Facility agent and the lenders, and customary events of default. We are in compliance with the Senior Loan Facility covenants as of September 30, 2017.

Use of Adjusted EBITDA and Adjusted Gross Profit (Non-GAAP measures) as Performance Measures

We use an adjusted form of EBITDA to measure period over period performance, which is a non-GAAP measurement. Adjusted EBITDA is defined as net income (loss) plus depreciation and amortization, plus interest expense, plus income taxes, plus share-based compensation, plus loss (gain) on disposal of property and equipment, plus costs incurred on debt restructuring, plus foreign exchange loss (gain) and plus nonrecurring one-time expenses. Our management uses Adjusted EBITDA as a supplemental financial measure to assess:

- the financial performance of our assets without regard to financing methods, capital structures, taxes, historical cost basis or non-recurring expenses;
- our liquidity and operating performance over time in relation to other companies that own similar assets and calculate EBITDA in a similar manner; and
- the ability of our assets to generate cash sufficient to pay potential interest cost.

We consider Adjusted EBITDA as presented below to be the primary measure of period-over-period changes in our operational cash flow performance.

The computation of our Adjusted EBITDA (a non-GAAP measure) from net income, the most directly comparable GAAP financial measure, is provided in the table below (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Net income (loss)	\$ (13,845)	\$ (17,397)	\$ (22,858)	\$ 104
Depreciation and amortization (1)	2,900	4,271	9,300	12,909
Interest expense, net	7,496	7,493	24,415	15,554
Provision for income taxes	1,950	1,146	4,175	4,550
Share-based compensation (2)	384	273	1,649	616
(Gain) loss on disposal of equipment, net (3)	12	212	(71)	(38)
Costs incurred on debt restructuring (4)	208	2,891	208	5,225
Foreign exchange (gain) loss, net (5)	(341)	322	695	(2,116)
Nonrecurring expense (6)(7)	81	651	261	1,460
Adjusted EBITDA	\$ (1,155)	\$ (138)	\$ 17,774	\$ 38,264

(1) Depreciation and amortization expense was charged to the statements of operations as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Cost of services	\$ 2,809	\$ 4,149	\$ 9,007	\$ 12,520
Selling, general and administrative expenses	91	122	293	389
Total depreciation and amortization	\$ 2,900	\$ 4,271	\$ 9,300	\$ 12,909

(2) Share-based compensation primarily relates to the non-cash value of stock options and restricted stock awards granted to our employees and directors.

(3) (Gain) loss on disposal of property and equipment, net is primarily the impact of sale of equipment.

(4) Costs were incurred during 2016 and 2017 debt restructurings.

(5) Foreign exchange (gain) loss, net includes the effect of both realized and unrealized foreign exchange transactions.

(6) Nonrecurring expenses in 2017 primarily consist of severance payments incurred in our Peru and Alaska locations and various non-operating expenses incurred at our corporate location.

(7) Nonrecurring expenses in 2016 primarily consist of severance payments incurred in our Peru, Colombia, Canada and Alaska locations, payments related to tax services provided in connection with our Restructuring and various non-operating expenses incurred at the corporate and Peru locations.

Adjusted Gross Profit

We use an adjusted form of gross profit to measure period over period performance, which is not derived in accordance with GAAP. Adjusted Gross Profit is defined as gross profit plus depreciation and amortization expense related to the cost of services. Our management uses Adjusted Gross Profit as a substantial financial measure to assess the cost management and performance of our projects. Within the seismic data services industry, companies present gross profit both with and without depreciation and amortization expense on equipment used in operations, and therefore we also use this measure to assess our performance over time in relation to other companies that own similar assets and calculate gross profit in the same manner.

The computation of our Adjusted Gross Profit (a non-GAAP measure) from gross profit (loss), the most directly comparable GAAP financial measure, is provided in the table below (in thousands):

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2017	% of Revenue	2016	% of Revenue	2017	% of Revenue	2016	% of Revenue
Gross profit as presented	\$ 1,471	6.6%	\$ 1,376	4.2%	\$ 25,598	20.9%	\$ 44,176	24.5%
Depreciation and amortization expense included in cost of services ⁽¹⁾	2,809	12.5%	4,149	12.5%	9,007	7.4%	12,520	7.0%
Gross profit excluding depreciation and amortization expense included in cost of services	\$ 4,280	19.1%	\$ 5,525	16.7%	\$ 34,605	28.3%	\$ 56,696	31.5%

(1) Depreciation and amortization expense included in cost of services includes depreciation and amortization on equipment used in operations.

The terms EBITDA, Adjusted EBITDA and Adjusted Gross Profit are not defined under GAAP, and we acknowledge that these are not measures of operating income, operating performance or liquidity presented in accordance with GAAP. When assessing our operating performance or liquidity, investors and others should not consider this data in isolation or as a substitute for net income, gross profit, cash flow from operating activities or other cash flow data calculated in accordance with GAAP. In addition, our calculation of Adjusted EBITDA and Adjusted Gross Profit may not be comparable to EBITDA or Adjusted Gross Profit or similarly titled measures utilized by other companies since such other companies may not calculate EBITDA or Adjusted Gross Profit in the same manner. Further, the results presented by Adjusted EBITDA and Adjusted Gross Profit cannot be achieved without incurring the costs that the measures exclude.

Critical Accounting Policies

For a discussion of critical accounting policies see the section entitled “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” in our 10-K. There have been no changes to the critical accounting policies used in our reporting of results of operations and financial position, except as discussed in Note 1 of Notes to Unaudited Condensed Consolidated Financial Statements under the captions “*Recently Issued Accounting Pronouncements - “-Restricted Cash” and “-Going Concern”*”.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Forward-Looking Statements

This report contains “forward-looking statements” within the meaning of the U.S. federal securities laws, with respect to our financial condition, results of operations, cash flows and business, and our expectations or beliefs concerning future events. These forward-looking statements can generally be identified by phrases such as “expects,” “anticipates,” “believes,” “estimates,” “intends,” “plans to,” “ought,” “could,” “will,” “should,” “likely,” “appears,” “projects,” “forecasts,” “outlook” or other similar words or phrases. There are inherent risks and uncertainties in any forward-looking statements. Although we believe that our expectations are reasonable, we can give no assurance that these expectations will prove to have been correct, and actual results may vary materially. Except as required by law, we undertake no obligation to update, amend or clarify any forward-looking statements to reflect events, new information or otherwise. Some of the important factors that could cause actual results to differ materially from our expectations are discussed below. All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by these cautionary statements.

Factors that could cause actual results to vary materially from our expectations include the following:

- developments with respect to the Alaskan oil and natural gas exploration Tax Credit system that may continue to affect the willingness of third parties to participate in financing and monetization transactions and our ability to timely monetize Tax Credits that have been assigned to us by our customer;
- changes in the Alaskan oil and natural gas exploration Tax Credit system that significantly affect the level of Alaskan exploration spending;
- fluctuations in the levels of exploration and development activity in the oil and natural gas industry;
- intense industry competition;
- limited number of customers;
- credit and delayed payment risks related to our customers;
- the availability of liquidity and capital resources, including our long term need to refinance or replace our Credit Facility and our Senior Term Facility and to realign our capital structure, and our inability to make capital expenditures due to our current liquidity and cash flow situation and the potential impact all these matters have on our business and competitiveness;
- need to manage rapid growth and contraction of our business;
- delays, reductions or cancellations of service contracts;
- operational disruptions due to seasonality, weather and other external factors;
- crew availability and productivity;
- whether we enter into turnkey or term contracts;
- high fixed costs of operations;
- substantial international business exposing us to currency fluctuations and global factors, including economic, political and military uncertainties;
- ability to retain key executives; and
- need to comply with diverse and complex laws and regulations.

You should refer to our other periodic and current reports filed with the SEC and the risk factors from our 10-K for specific risks which would cause actual results to be significantly different from those expressed or implied by any of our forward-looking statements. It is not possible to identify all of the risks, uncertainties and other factors that may affect future results. In light of these risks and uncertainties, the forward-looking events and circumstances discussed in this report may not occur and actual results could differ materially from those anticipated or implied in the forward-looking statements. Accordingly, readers of this report are cautioned not to place undue reliance on the forward-looking statements.

Item 4. Controls and Procedures

Management's Evaluation of Disclosure Controls and Procedures.

We carried out an evaluation, under the supervision and with the participation of our management, including our principal executive and principal financial officers, of the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15(e) and 15d-15(e) under the Exchange Act as of the end of the period covered by this report. Based upon that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that, as of September 30, 2017, our disclosure controls and procedures were effective, in all material respects, with regard to the recording, processing, summarizing and reporting, within the time periods specified in the SEC's rules and forms for information required to be disclosed by us in the reports that we file or submit under the Exchange Act. Our disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the third quarter covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1A. Risk Factors

There have been no material changes in the significant risk factors that may affect our business, financial position, results of operations or liquidity as described in the section entitled "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2016 or as updated in our Form 10-Q for the quarter ending June 30, 2017, except for updates to the risk below.

Developments in the State of Alaska and their consequences for the market for exploration tax credits and the impacts of those developments on our cash flow have intensified the negative impact on our current liquidity and cash flow.

The State of Alaska offers two types of exploration tax credits ("Tax Credits"), which certain of our Alaskan customers receive in connection with the acquisition of seismic data that we generate. These customers may utilize cash received from the State of Alaska for the Tax Credits or, more typically, from the proceeds of a third party loan secured by the Tax Credits to pay accounts receivable due to us. As a result, we have, from time to time, accounts receivable due from Alaskan customers where the timing and amount of payment to us may be dependent upon when the Tax Credits can be monetized. In connection with the above, our Alaskan customers manage the Tax Credit process, which includes filing an application, undergoing an audit and receiving a Tax Credit certificate for the permitted amount. However, the ultimate disposition and timing of the process of the issuance of a Tax Credit certificate by the State of Alaska is outside our control. Historically, applicants have been able to quickly monetize Tax Credits before the issuance of the Tax Credit certificates and remit prompt payment to us by securing a loan from a financial institution secured by the Tax Credits. However, the State of Alaska's existing budget deficit, delays in the State of Alaska paying on Tax Credits compared to historical timing, a veto by the governor of Alaska over the line item in the budget to pay Tax Credits in the fiscal 2017 budget, uncertainty over the budget to pay Tax Credits in 2018 and legislation that amends the current Tax Credit program have produced substantial uncertainty about the timing of reimbursement from the State of Alaska for Tax Credit certificates. As a consequence of this uncertainty, third-party financial institutions have suspended lending against Tax Credits and Tax Credit certificates. In turn, our ability to monetize these Tax Credits in a timely manner has also been materially and adversely affected.

At September 30, 2017, our largest account receivable from one customer was \$78.1 million, representing 87% of total consolidated accounts receivable. This customer was relying on monetization of Tax Credits, either from proceeds from the State of Alaska or from third party financing sources, to satisfy the accounts receivable. There remains substantial uncertainty regarding the timing of reimbursement from the State of Alaska and the availability of third party financing to the customer, or us, in order for us to collect our accounts receivable.

Due to the customer's inability to monetize the Tax Credits, our customer has assigned \$89.0 million of Tax Credits to us so that we can seek to monetize these Tax Credits and apply the resulting cash, as monetization occurs, toward the customer's repayment of its overdue account receivable. We have recorded a total reduction of the accounts receivable balance of \$3.5 million related to the monetization of Tax Credits during the nine months ended September 30, 2017. Based upon the uncertainty regarding the timing to monetize the Tax Credits, we have classified \$44.0 million and \$38.0 million as a long term accounts receivable as of September 30, 2017 and December 31, 2016, respectively. We reclassified an additional \$6.0 million to long term in the nine months ended September 30, 2017 due to delays in monetization of Tax Credit certificates related to the legislation discussed below.

As of September 30, 2017, the State of Alaska has completed its audit of approximately \$46.3 million of Tax Credit applications. This audit resulted in us receiving approximately \$40.5 million of Tax Credit certificates from the State of Alaska. The State of Alaska disallowed approximately \$5.8 million of what we believe should otherwise be eligible expenditures. Our customer filed an appeal of this decision on October 18, 2016 seeking a reversal of the disallowed amount. We expect additional Tax Credit certificates from the State of Alaska representing approximately \$42.7 million to be issued during the remainder of 2017 and the beginning of 2018.

There continues to be significant uncertainty regarding the timely payment by the State of Alaska of its obligations on issued Tax Credit certificates as well as our ability to accurately estimate the timeframe for such payments. We continue to explore options to monetize the Tax Credit certificates, including the option we have utilized to sell the certificates in the secondary market at a discount to purchasers that are able to apply the certificates to reduce their own Alaskan tax liabilities. There is a risk that any monetization of the Tax Credit certificates, however, will reflect a substantial discount and may be insufficient to fully repay the customer's outstanding accounts receivable. Should this result, we may be required to record an impairment to the amount due from our customer. In addition, we believe the secondary market has been negatively impacted by the uncertainty about future political developments or legislative actions affecting oil and gas exploration activities and overall oil and gas market conditions. This has currently delayed our ability to monetize our Tax Credit certificates. We believe recent legislation actions should positively

affect the secondary market, however, we do not control the timing or outcome of the actions in this market. We are relying on the secondary market to monetize the Tax Credit certificates and if it does not improve we may be required to record an impairment to the amount due from our customer. We also believe that rising oil prices would increase the market for our Tax Credit certificates, but there can be no assurance that prices will increase sufficient to improve the market or when it might occur.

In addition to monetization of the Tax Credits, we have other possible ways for us to receive payments on our accounts receivable from our customer. We have possession of the seismic data and will continue to hold it until we have received payment in full of our accounts receivable. We continue to assist the customer in actively marketing and licensing of the seismic data we collected on behalf of our customer. Licensing revenues received must be paid to us in satisfaction of our accounts receivable. In addition, subject to any licenses granted, the customer has the right to sell the data and apply the proceeds to our receivables. We believe that the receipt of these licensing revenues and sales proceeds may be sufficient to cover the difference between the owed accounts receivable and the cash we are able to generate by monetization of our Tax Credits, but there can be no assurance that it will occur or when any such payments will be received.

Due to the delay in our ability to monetize the Tax Credit certificates, we entered into the Second Amendment to the Senior Loan Facility which extended the maturity date to January 2, 2020; provided that the maturity will be January 2, 2019 if there are any outstanding Senior Secured Notes or Second Lien Notes at that time, among other things. See Note 7 for additional information on the Second Amendment.

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Jeff Hastings, certify that:

1. I have reviewed this quarterly report on Form 10-Q for the period ended September 30, 2017 of SAExploration Holdings, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION OF CHIEF FINANCIAL OFFICER
PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Brent Whiteley, certify that:

1. I have reviewed this quarterly report on Form 10-Q for the period ended September 30, 2017 of SAExploration Holdings, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
